## GREAT WELCOME AWAITS WILSON IN FOREIGN LAND

London, Nov. 20.—President Wilson is assured of the most cordial reception in every allied country, both from the people and from officials. There were many evidences today that the executive head of the American republic would receive a welcome such as has never before been accorded a foreign dignitary. Receipt of the news that he had definitely decided to personally attend the forth-coming peace conference served to make manifest the great respect and affection felt on this side for the man who has so clearly outlined the policies of the world democracies in the present war. It is understood here that while Wilson was so considering the advisability of a trip to this side of the Atlantic, both Lloyd-George and Clemenceau were urging him to come to the peace conference. It is believed his final decision was largely the result of their representations.

## ALLIES UNMOVED BY WHINING OF TEUTON LEADERS

Washington, Nov. 20.—That there is no actual danger of Bolshevism in Germany, but that Teuton leaders are over-playing its possibility for their own ends, is the official attitude of this government today toward the German situation.

This position was revealed by the state department.

It was pointed out that the semi-calm of recent days need not necessarily be significant. Russia started rather quietly, but when Bolshevism burst in its fullness, the nation went mad.

The state department scarcely expects events to follow the same sequence in Germany, for the intellect and training of the average German are higher than those of the Slav. It was pointed out that the Russian came out of actual serfdom only a few years ago. The German has not been a real serf, though he has been bound down by caste and by autocratic rule.

However, it was said that liberty for the Teuton probably will not prove as intoxicating as to the Russian. The chief element in the situation as seen by the state department is the danger that when the dead of winter comes there may be hunger through unequal food distribution. That, as President Wilson has pointed out, tends to anarchy.

So the state department feels that there is still a chance of genuine Bolshevism, with bad consequences in Germany.

On the other hand, the official giving the above points, added the suggestion that Germany was over-playing the possible menace in an effort to enlist sympathy for herself and to gain modification of armistice and peace terms.

"Looking at the matter from the German viewpoint, it seems quite the logical thing for them to do," said the authority.

He indicated, however, that neither this nation nor the allies are being unduly swayed by the self propaganda, waiting for help and appealing for sympathy.

## BOLSHEVIKI PLOT UNCOVERED IN VIENNA

Copenhagen, Nov. 20.—A great communistic plot has been uncovered in Vienna, according to reports received here today.

It was planned to seize all public buildings and proclaim a Bolshevik government. Several hundred have been arrested.

## RETIRED OFFICER DIES.

Montreal, Nov. 20.—Rear Admiral Payard Speyers, U. S. N., retired, of New York, is dead here today following an extended illness.

He was 72 years of age, and a veteran of the civil and Spanish-American wars.

## CANADA TO DEMOBILIZE.

Montreal, Nov. 20.—Definite orders for the demobilization of all Canadian expeditionary forces in this military district have been received by Major General E. W. Wilson, from Adit. Gen. Ashton. There are 50,000 soldiers in this district.

GREETINGS FROM ITALY

Rome, Nov. 20.—King Victor Emanuel has sent the following message of greetings to President Wilson and the American people:

"I greet the people of the United States at this moment which marks for free democracy the realization of the ideals for which the great nation which is subject to your direction took up arms with the peoples who fought for independence and for the betterment of future humanity. For myself, my people, and the soldiers of Italy, I express to you and your noble nation the fullest admiration. I extend my best wishes for a durable friendship between our peoples."

## BOLSHEVIKI ARE REPULSED BY ALLIES IN HARD BATTLE

Archangel, November 13.—(Delayed)—Bolsheviki forces have resumed their attacks against the American and British positions at Tulgas. They have been repulsed with severe losses.

On the morning of November 11, after a heavy bombardment from their gunboats and barges in the Dvina river, the Bolsheviki infantry stormed the allied barbed-wire entanglements, and succeeded temporarily in reaching the gun emplacements of the Canadian artillery.

Tulgas is on the Dvina River south of where that stream is joined by the River Vaga. It is in the province of Archangel, a few miles west of the border between that province and the province of Vologda.

Washington, November 20.—There has been no change in the Russian and Siberian situation from a military standpoint, Secretary Baker states, and no plans have been made either for sending additional American troops or for withdrawing any of the forces now operating in Siberia and European Russia.

## PERSHING IS BACKED FOR PRESIDENCY

Washington, Nov. 20.—A definite movement has been started by Republican leaders in congress looking toward the nomination of General John J. Pershing as the Republican candidate for president in 1920.

The promoters of the movement believe that "Black Jack" Pershing will prove as popular and irresistible a candidate as was General Ulysses S. Grant, following the victorious conclusion of the civil war.

The Pershing presidential movement is not a myth.

It is not idle speculation.

It is backed by practical men who are not interested in General Pershing so much personally as they are in winning the election in 1920 and who are inspired by a very positive belief that General Pershing as a candidate for president would be invincible.

## AMERICANS TO CELEBRATE IN GOOD U. S. STYLE

New York, Nov. 20.—Two million American fighters in France will observe Thanksgiving and Christmas, home style, this year, according to information received here today by the Y. M. C. A. from Paris.

The program includes football games and regular old-fashioned celebration with cider, doughnuts, pumpkin pie and impromptu performances.

On Christmas, soldiers will be given boxes containing sweets and cigarettes, and tobacco and Christmas trees will brighten the 1800 huts.

## COAL MINERS TO BE RELEASED AT ONCE

Washington, Nov. 20.—Orders issued by the war department today give anthracite miners in cantonments opportunity to return at once to civil life, if willing to go to work in the anthracite fields at once.

A total of 50,000 coal miners have been inducted into the army.

## JOY OF LIBERATED RESIDENTS REPAID ALLIED SOLDIERS FOR WORK IN FREEING FRENCH AND BELGIAN TOWNS OF HUNS

British troops entering Lille.

The joy of the inhabitants, grownups and little folk, of the towns retaken by the allies in their great drive that brought the war to an end, knew no bounds.

The victorious allied soldiers on entering the towns were wildly cheered. Adults and children ran along beside the soldiers, taking hold of their arms and even rugging and kissing them. Girls fell into line and marched beside the heroes. The happiness the soldiers brought repaid them for their efforts. Note that they, too, are enjoying the celebration.

## "HURRAH FOR BELGIUM!" GERMAN TROOPS SHOUT

Paris, Nov. 20.—Demonstrations by German soldiers in Brussels on Sunday, the day before the armistice with Germany was signed, are described in the Journal la Belgique, a newspaper published in Brussels for four years under control of the German censorship, in its issue of November 11.

Thousands of soldiers, without arms, gathered in front of the North Station and formed a procession which marched through the North boulevard, carrying red and French flags. The populace, at first dumb with astonishment at the strange sight, enthusiastically cheered the soldiers carrying the French tricolor and shouting "Hurrah for Belgium!" "Hurrah for France!"

The procession halted at the Palace of Justice, where a meeting was organized and a banner raised on which was inscribed, "Comrades, do not fight any more! Do not shoot!"

A Belgian demonstration was then organized, in which the German soldiers joined with the Belgians in singing the "Brabanconne" and the "Marseillaise."

Automobile trucks, carrying German marines and decorated with Belgian flags, appeared on the Grand Place, where one of the marines spoke in praise of the Belgian King and his people.

Until late last night the President

discussed with senators, details of pending legislation and some of his ideas on reconstruction including the probable labor policy he will advocate and the need of building up and protecting a great American merchant marine.

He plans to sail for France Dec. 3, after delivering his annual message to congress on Dec. 2.

President Wilson and his party will go to Europe on a big transport, according to present plans. The particular vessel had not been chosen yet, Secretary Daniels said today.

The navy will provide a battleship and destroyer convoy as a guard of honor for the presidential ship.

It is proposed to take the entire peace delegation on the transport and hence a large vessel will be needed, it is stated.

Meanwhile the government is having many new problems presented it for settlement at the peace table—particularly by neutrals who look to President Wilson as their friend. Neutrals confidently expect to send delegates to the conference. Unless they are formally invited to attend, they will ask permission to send representatives. The issues, neutral diplomats here say, are too vital to permit silence.

Antwerp, Nov. 19.—(Delayed)—King Albert and Queen Elizabeth entered Antwerp this morning amid a clamor of Cathedral Bells, and the shouts of the people. The streets were thronged and people packed the windows and sat on the roofs, despite the rain. The city was gaily decorated with Belgian and allied flags.

WANTS TO BE ANNEXED.

Copenhagen, Nov. 20.—Austrian delegation has begun negotiations in Berlin for annexation of German-Austria to Germany, according to advices received here today.

The lower section of the city, for the second time in two days, was flooded last night, when the tide rose and swept over the streets. Warehouses were badly damaged.

SIX CENT FARE AUTHORIZED.

Chicago, Nov. 20.—Patrons of the Chicago elevated railroads were notified today the company has been authorized to put into effect a six cent fare. The rates were raised from five cents.

## UNDERSEA SERPENTS NOW UNDER CONTROL OF BRITISH FLEET

Harwich, Eng., Nov. 20.—Twenty U-boats surrendered to Rear Admiral Tyrwhitt, thirty miles off Harwich, at sunrise this morning.

Tyrwhitt received the German surrender aboard his cruiser flagship. Twenty more U-boats will surrender tomorrow and Friday and the balance later.

Following the surrender the twenty submarines proceeded with their own crews to Harwich where they were boarded by British crews. The Germans will return to their own country later, in a German transport.

Rear Admiral Reginald Tyrwhitt is commander of the destroying squadron of the first fleet.

Harwich is a seaport in Essex county on the east coast, 65 miles northeast of London. Its strongly defended harbor is one of the best in England.

Rome, Nov. 19.—(Delayed)—In conformity with the armistice, Admirals Cami and Koek have taken over Pola harbor. The Austrian dreadnoughts, Tagethof and Prinz Eugen are now flying the Italian flag.

The American naval mission, under Admiral Mayor just completed an inspection of the recent Italian war zone.

London, Nov. 20.—The allied armies of occupation are now well on their way to the Rhine.

Among the important cities re-occupied are Brussels, Antwerp, Metz, Saarburg, Elmar, Mulhausen, Zabern, Markierch and Neu Breischach. The average advance has been about 25 miles.

The advanced elements now occupy the general line of Antwerp, Malines, Vilvoorde, Brussels, Hal, Senefle, Charleroi, Florennes, Bourzeigne, Offagne, Bertrix, Strainmont, Stalls, St. Leger, Athus, Audin Le Roman, Metz, Morhange, Dieuze, Saarburg, Zabern, Wassenheim, Moelsheim, Neu Breischach, and the line of the Rhine to the Swiss frontier.

## LORRAINE NOW PROTECTED BY MOTHER FRANCE

Metz, Nov. 19.—(Night)—The nightmare of German domination in Lorraine ended to-day and this historic city is tonight under the protection of Mother France.

Metz was formally taken over by the French today when Marshal Pétain reviewed the tenth army before the statue of Marshal Hey.

French civilians and a majority of the Lorrainers were wildly enthusiastic during the ceremonies this afternoon, while a small pro-German minority looked passively on.

General Mangin, injured in a fall from a frightened horse, was unable to share in honors of occupation.

The crowds cheered the veteran Poilus and aviators swooped over head. One of the machines crashed head-on into the crowded square, but, miraculously, only a few persons were injured.

Numbers of children shouted "Vive la France," not knowing any other French words, because of the German laws forbidding the teaching of that language.

The last of the Germans had departed Sunday. The soldiers revolted and the officers were shorn of their chevrons and belts before the civilians. There were no signs of disorder other than that four statues of Wilhelm were broken.

Shops and restaurants are busy. Food was plentiful and substantial, with the exception of bread.

There were no wild demonstrations after the military review, the French element remaining quietly happy. The few Germans appeared resigned.

## RETURN OF KAISER IS EXPECTED SOON

Copenhagen, Nov. 20.—At Potsdam it is expected that the former kaiser will soon return, a Berlin dispatch stated today.

The former kaiser is staying at Prince Eitel Friedrich's palace at Ingelheim.

The former crown prince's family will remain at Potsdam.

## CHURCHES TO FALL LIKE LEAVES SAYS BISHOP NICHOLSON

Chicago, Nov. 20.—"Crowns are falling like leaves," now churches will fall like crowns," Bishop Thomas Nicholson, of the Methodist church, told the United Press today.

Optimistic as to the future of religion, Bishop Nicholson, claimed to see no hope for the established church self-centered and concerned only with its members.

"I know there are church-men who are pessimistic over the future of the church," Dr. Nicholson said. "The see in the coming period a relaxation from the tension of war and consequent losses to the church. I am not of that number."

"There is much to be done in the battle area and there is service to be performed in countries to which the Americans will go after the war. The church which has a genuine social reconstruction program will make preparations to care for needs. It will prosper in numbers and in money. The others will be in precarious shape."

## AMERICA AND ENGLAND WILL FIGHT SIDE BY SIDE IN THE FUTURE

Chicago, Nov. 20.—America and England will fight side by side again if there is ever another war according to Archbishop Mundelein.

Speaking at a dinner here tonight in honor of Rt. Rev. F. W. Kenning, bishop of Northampton, England, Mgr. M. C. DeWart, Belgian priest, the very Rev. Mgr. A. S. Barnes, bishop of Oxford, Arch-Bishop Mundelein said:

"This war has brought the United States and England closer together than before. If in years to come, another war should break out, it will find two English speaking countries fighting side-by-side."

Mrs. DeWart, who witnessed the German entry into Belgium, in a touching address, characterized the English hosts as "beasts in a very, very, polite in defeat."

Ten days after the signing of the armistice there was not a king left in Germany, although hitherto there had been three in addition to the kaiser. The kings of Saxony, Wurttemberg and Bavaria abdicated hurriedly, and their example was followed by a dozen dukes and princes.

### MERGER OF TWO SEMINARIES IS UP FOR DECISION

Question of the merger of Xenia Theological Seminary with the Pittsburgh seminary was set for discussion Wednesday morning by the Second Synod of Ohio of the United Presbyterian church, which convened Tuesday night at the First United Presbyterian church, Dayton.

A report on the matter was to be presented to Synod by the special committee which was appointed at the last session of Synod to investigate and report the question of a merger. The matter has been up before various Synods of the church at several different times, but no decision on a consolidation was ever reached. The general sentiment is apparently against a merger of the two schools and it is not expected that the Synod now in session in Dayton will favor the merger. The consolidation of the schools would mean the removal of Xenia seminary.

Dr. J. H. Webster, retiring moderator of Synod, gave an address at the opening session. Dr. Joseph Kyle, president of Xenia seminary, delivered an address Wednesday morning. Dr. Jesse Johnson, of the seminary, is also attending the sessions. Officers for the ensuing year elected by Synod Monday night are: Moderator, Rev. E. B. McClellan, of Belle Center; Vice Moderator, Prof. John E. Bradford, Oxford. The Rev. John A. Henderson, pastor of the Sugar Creek church, retains his office as stated clerk.

### HENRY PROCTOR PLEADS GUILTY TO STEALING CIGARS

Henry Proctor, colored, employed for a week or ten days as porter at the Mullen barber shop and cigar store, is under arrest at the police station charged with stealing 29 boxes of cigars from his employer. Proctor has confessed to stealing the cigars but has not been arraigned as yet. It has not been determined whether to charge him with petit or grand larceny.

While employed at Mullen's store Proctor stole the lock off the cellar door and that night slipped into the cellar and carried away the cigars. He took them to the restaurant at the depot where he posed as a former Pullman porter and declared he had a lot of cigars on hand which he wanted to sell. The proprietor of the restaurant believed his story and bought the cigars.

This is not Proctor's first offense. He has been in the State Reformatory on several different charges.

## SPANISH INFLUENZA—JUST GRIP CAMOUFLAGED UNDER A NEW NAME

Most Authorities Now Agree That This Disease is Simply the Old-Fashioned Grip, the Same That Has Swept Over the World Times Without Number. Since 1831 the United States Has Had Five Epidemics.

The Last Epidemic in 1889-90 Came from Russia by Way of France and Was Given a French Name, La Grippe. This Time It Comes by Way of Spain.

#### ORIGIN OF THE DISEASE.

Spanish Influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 413 B. C., which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

#### THE SYMPTOMS.

Grip, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

#### THE TREATMENT

Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only cure for influenza and will throw off the attack if only you conserve your strength. A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. These are chiefly pneumonia and bronchitis, sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

#### EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grip germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat and back between the shoulder blades to open the pores. Then

VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloth. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

#### NO OCCASION FOR PANIC.

There is no occasion for panic—influenza or grip has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a run down condition—those who don't go to bed soon enough, or those who get up too early.

#### HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds—which means avoid, using crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food.

#### KEEP FIRM FROM COLDS.

Above all, avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs. Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea-kettle. Fill half-full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

**NOTE—**Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's group or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects. adv

**EMPHATICALLY ASSERTS WORN OUT, LAGGING MEN CAN QUICKLY BECOME VIGOROUS AND FULL OF AMBITION**

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, you are tired-out, inactive, sluggish, low can quickly be made into a real live, energetic and even ambitious man. So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-Ferri at any druggist. This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despair of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks. No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-Ferri at once at Sayre & Hemp. Hills. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone. Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned. **NOTE TO PHYSICIANS:** There is no secret about the formula of Bio-Ferri; it is printed on every package. Here it is: Lactogen; Calcium Glycophosphates; Iron Peptonate; Mannitol; Potassium; Ext. Nut. Yoni; Powdered Gentian; Phenolphthalein; Oxidized Capsicum; Kola. adv

## RUDOLPH S. WOLF, OF JEFFERSON TOWNSHIP, LOSES LEG IN FRANCE

The following letter from Rudolph S. Wolf, of Jefferson township, this county, as written to his mother, Mrs. R. H. Wolf, gives a clear conception of the kind of stuff the American soldiers are composed of. He has lost a leg in fighting and his letter which bears the information to his family shows the true American spirit which has carried the American army to victory. It is the spirit which never could have been beaten as long as an American soldier was left to carry a gun.

Mr. Wolf was the first Jefferson township boy to answer the call to the colors. He enlisted in the Marine corps on May 29, 1917, and was sent to Port Royal, Paris Island, S. C., and

in September was transferred from there to Virginia. On January 20th he sailed for France and was with the Marines in the battle of Chateau Thierry and helped start the Huns "back to Berlin." He was gassed at Belleau Woods on June 14th and was in the hospital for seven weeks, returning to duty August 8th. On September 15th he was wounded and again taken to the hospital at Bordeaux, France. There he met another Greene county boy, Lieutenant R. C. Austin, of Bellbrook.

His letter follows:

October 22nd, 1918.  
With the U. S. Marines, A. E. F.  
Dear Mother—Well, I expect you think I am dead by this time, but far from it. I am in a whole lot better condition than I was when I wrote you last, which has been nearly, if not over three weeks. You have no doubt received Lieutenant Austin's letter of a couple weeks ago. I have gone through a whole lot since I came to this hospital. I do not know whether the censor will pass this or not.

I expect to be back in Uncle Sam's land in less than three months, and help eat all that canned goods you folks are putting up, and help eat some of those winter frys you wrote about in your letter. I received nine letters the other day. Well, I expect you are wondering what is bringing me back. Well, it is an amputation. I had several hemorrhages and they had to amputate just above the knee. I am sitting up in bed, and getting as fat as a pig. I lost lots of blood but the boys gave me some of theirs and they fixed me up all o. k. I said to the doctor the other day, "well it is just three weeks until Thanksgiving. I hope to be up by that time." He said you will be away from this hospital and maybe on the way home. Now mother don't worry I am all o. k. and have done my duty for God and Old Glory and Uncle Sam takes care of his boys, and in less than a year I will be walking on my new leg and you could hardly tell the difference. I am glad it is not an arm. So don't worry. Rejoice and be glad that I am happy and we will all be home together before many months. With love to all. From your soldier boy RUDOLPH.

Above, Everett Scott, at left, and Joe Gedeon. Below, Frank Baker, at left, and Chic Gandil.

Official fielding averages of American league players, just issued, show Chic Gandil as the real leader of the first basemen in fielding, Joe Gedeon leader at second base, Frank Baker at third and Everett Scott at short. These men lead the league in their positions in clean fielding.

## MEMORIAL SERVICE FOR W. THOMAS LITTLE

On Friday evening, Nov. 22, at 7:30 o'clock, a memorial service will be held in the chapel of the theological seminary for Mr. W. Thomas Little, who died on October 1, from wounds received in action in the Argonne region in France.

Brief addresses will be made by classmates and friends of Mr. Little, at the conclusion of which his portrait will be thrown upon a screen and "traps" will be sounded by the bugler of the Home cadets. It is desired that all friends and former acquaintances of the brave soldier boy who has given his life to the great cause, attend.

## OHIO NATIONAL GUARD IS NOT TO BE RE-ORGANIZED

Columbus, Nov. 20.—There will be no re-organization of the Ohio National Guard as before the war. Gov. Cox stated today on his return from Washington where he conferred with Secretary of War Baker on the subject. "A state guard, financed by state funds and using such equipment as the federal government may issue, will probably take its place," the governor said. "The federal government, according to present plans is not desirous of having the state guards, financed by it reorganized."

## PRESIDENT MUST HAVE PASSPORTS

Washington, Nov. 20.—With the wartime regulations still in effect, President Wilson cannot leave the country for Europe without a passport. It is possible, however, that foreign governments and this government will relax the regulations as a matter of courtesy in the case of the President and Mrs. Wilson. The question has not yet come up for decision in the state department.

## NATION GOING OVER TOP IN WAR DRIVE

New York, Nov. 20.—Reports from all sections of the country today indicated that the nation was going over the top for the United War Work fund, with a fifty per cent over-subscription.

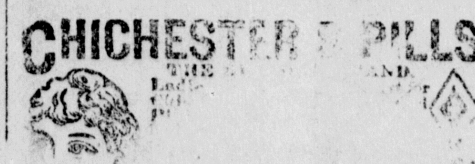

Thirty two states in all have passed their original quotas.

### LEAGUE OF NATIONS TO ENFORCE PEACE.

For a long time past one of the questions which has often appeared in the papers has been: "After the war, What?" Well, of course, we didn't then think that the war was going to collapse so quickly. We, not on the firing line, now that it is over, think of it as rather a sudden termination, but of course know that it was dragging along slow enough to the poor boys over there, who were enduring the hardships of the frightful conflict.

But, within a few weeks, we had the call for the armistice from the Huns, assembled the armistice body, gave them the terms, had these accepted, and as "to the victors belong the spoils," now the Allies are busy taking account of the captured stock. The next thing is the "laying down the law" to the world despoilers—or in other words the "Peace Table"—meeting out to them their punishment for past crimes and fixing conditions for their future behavior. They are infamous criminals against the laws of nations and against all the instincts of humanity. They can never be punished as they deserve, but we will aim to make them "walk-chalk" in humiliation before the world.

The "Peace Table," we now know, is to assemble at Versailles, a suburb of Paris, former palace of royalty, in December (how important events crowd each other) and that President Wilson will head this country's delegation to the conference. By common consent and approbation of all the allies the President will assume the leading role at the momentous conference.

There are two outstanding reasons, it is said, why the President's attendance is necessary at the peace conference. He desires to preserve the unity of counsel that brought victory to the allies and America on the battlefield, and which characterized the sessions of the Supreme War Council at Versailles, and he also desires to make secure the foundations of a League of Nations. The latter is his plan for world and lasting peace, and he is so strongly convinced of its efficacy that he is going to Europe to put it into concrete form.

The end of the war puts upon the great Powers and upon the people of the United States, the formation of a league of free nations to enforce future peace.

The pressing imminence of the issue of a league is not as fully understood in this country as it is in Great Britain, in France and Italy. The movement was initiated in the United States in 1915 by the formation of the American League to Enforce Peace; of which Ex-President Taft is the President.

The League of Nations, in England, France and Italy has become the slogan of workmen and common people and they will brook no hesitation on this subject by the representatives of their countries in the Peace Congress.

The convention of the Wisconsin League to Enforce Peace held at Madison a week or so ago, was rendered interesting by the many thoughtful addresses there delivered. The speeches which attracted most attention were delivered by Mr. A. M. Simons, chairman of the American Social Democratic Commission, which visited Europe some months ago, and Mr. John P. Frye, editor of the Molders' Journal and executive officer of the Molders' Union, who was a member of both labor commissions which visited Europe, the last one with Mr. Gompers as its chairman.

The part of the addresses most interesting to their hearers was their description of the way in which the League of Nations to Enforce Peace had taken hold of the mind and imagination of the working class of all the Socialists and of all the plain people of the Allied countries. They described it as a passion for the league. The demand for it has grown out of the lessons of the war which death, destruction and suffering have burned into the hearts of the people. A demand for a league to enforce peace is now made by organized labor in this country. Wherever the issue is discussed it commands the attention and support of American audiences.

Now that the issue is on, now that it has become a real political question to be acted on, it would be well for those who seek to promote the will of the people to regard it as a serious question and to give the league all the support which they are capable of.

### THE DRY FIGHT IN CINCINNATI.

Because Cincinnati has occupied such a conspicuous place in the history of prohibition elections in Ohio, its conduct at the late election will be of interest. Last year the vote in Hamilton county stood thus: Wet, 83,288; dry, 26,307; wet majority, 56,981. This year the vote was: Wet, 72,494; dry, 19,724; wet majority, 52,770. The net gain of the dries was therefore 4,211. The notorious Eighth Ward increased its dry vote, while the residence districts on the hilltops and in the suburbs fell off as much as twenty-five dry votes to the precinct.

The increased dry showing is due largely to a more honest count. For instance, in a certain precinct of Ward 8 last year the wets polled 198 and the dries 1; this year the wets had only 98 and the dries 2. Every precinct in the down-town section had challengers and inspectors in them for the first time.

#### RUTH FINDS BRIAN'S MESSAGE TO MOLLY.

##### CHAPTER XCIII.

Tears filled Ruth's eyes as she threw her arms around her old mammy.

"I was going to surprise him, mammy! I thought he would be so pleased."

"Don't you go fer to sprise him no time, honey. He ain't comin' home much when yo's away. He sholy ain't!"

Ruth wanted to ask mammy about the number of evenings Brian had spent out while she was away, but bit her lip to keep the questions back. Not even to old mammy, who had known and loved her all her life, would she express curiosity about her husband, or seem to pry into his intentions.

"Go tak yo things off, honey. I'll git yo some dinner in a jiffy."

Ruth did as Rachel told her. But she could eat very little of the tempting dinner Rachel brought her. She was so disappointed that she could scarcely keep the tears back; yet Brian might come in at any moment and he must not find her crying.

Her dinner finished, she could set herself at nothing, although she tried to read. But her thoughts were constantly straying, always Brianward.

"I'll write Aunt Louisa," she said aloud, and moved over to her desk. Idly she fingered the blotter, then her attention was arrested by the heavy lines blotted upon it. She smiled as she thought, "Brian has been using my desk to write—perhaps he wrote me again last night."

Brian's lavish use of ink had always rather amused Ruth. His bold chirography with the heavy shaded lines was unmistakable. Now she looked closely at the blotter. At first she only made out a word here and there—"dear" and "Rachel" and "trouble."

"He was writing me," Ruth said aloud. "I wish I had telegraphed him. Perhaps he was lonely he went to the theater or a movie."

Again she bent over the blotter. This time more carefully. Without much trouble, she finally had the entire note Brian had written Molly, before her. That is, enough of it to know it was not intended for her.

"Don't call—house again, dear Rachel—understand—tell—make trouble."

The missing words made Brian's meaning different altogether from what he had intended to convey to Molly. He had said "Rachel might not understand" but the "not" was undecipherable. "Who could this note be intended for?" Ruth asked herself, the answer already in her mind: "Mollie King."

But what was it that Rachel would understand, and make trouble about? And he called her "dear"—had warned her not to call the house because of this fear that old mammy might understand something he didn't want her—Ruth—to know. Of course she would be apt to repeat to Ruth anything she thought her young mistress should know, of what went on while she was away.

"What can I do?" Ruth moaned, resting her head on her hand while tears dropped upon the blotter which had told her so much. "What shall I do? I love you so, and you care for her."

Ruth really considered what she had read, proof that Brian was doing

### A TRIBUTE TO THE GREAT ARMY THAT DIED FOR FREEDOM

### MOTORAIDS

The mention of winter should make these things stand out in the memory of a car owner: battery, radiator, top, curtains, carburetor and tires. First and most important is the battery.

If you have no hydrometer, buy one. They only cost a dollar. Drop the hydrometer into a solution in the battery cells every week. If the battery doesn't test around 1275, look out. Remember, the drain on the battery is twice as great in the winter as in the summer. These facts are from the battery makers.

The little instruction book that is found in the tool box of almost every new car, warns the owner to keep the battery plates covered with distilled water. Many times in starting a motor in cold weather you will use more current than the generator will put back in the battery in an hour's running. Don't put anti-freezing solution in the battery. It will not freeze if properly charged. But an under-charged battery will freeze quicker than water.

To make up for the tendency of the front wheels to spread under the driving force, the wheels should be from one fourth to three eighths of an inch closer together in the front than in the rear. That is, the distance between the front, if measured ahead of the front axle, is that much less than if measured back of the axle. To make these measurements accurately the wheels should be jacked up off the ground and a given point taken for the alignment. Use a valve stem for a marker.

Turn each wheel so that the valve stem points straight ahead.

### AFTER INFLUENZA

The Grip, Fevers, and Other Blood Poisoning, Prostrating Diseases.

The best course of restorative treatment, purifying the blood, strengthening the nerves, stimulating the liver, is:

Hood's Sarsaparilla, the standard blood purifier, before eating. Peptonin a real iron tonic (chocolate pills), after eating. Hood's Pills (cathartic, mild and effective) as needed.

These three great medicines make convalescence real rapid and perfect. They are also of service in the prevention of disease and the preservation of health. They form Hood's Triple Combination Treatment.

Each is good alone; all are good together. Get them today.

the point of contact of the tire with the ground. Starting in front of the axle, turn both wheels so the valve stems are at the same position back of the axle. Then, if in perfect alignment, the back of a thirty four inch wheel should be three eighths of an inch wider. The steering knuckles are so constructed that the difference between the tops of the front wheels is from one and three quarters to two inches greater than the distance between the point of contact on the ground.

### TOO TIRED TO WORK?

If you get up in the morning tired, if you weary with little exertion and if you find that your liver is torpid. One dose of Schenck's Mandrake Pills will "wake up" that lazy liver and make you feel like new. Schenck's Mandrake Pills are worth a trial tonight.

## MRS. BOWMAN HUNT DIES ON TUESDAY

Mrs. Pearl I. Hunt, wife of Bowman Hunt, died at her home, 50 Trumbull street, at 11:30 Tuesday forenoon, after one week's illness of influenza, followed by pneumonia.

Mrs. Hunt was married July 10, 1901. She is survived by her husband, three children, Lawrence, Irma and Marjorie; her mother, Mrs. Elizabeth LeValley of Springfield, and two sisters, Mrs. Ethel Koogler of Xenia, and Miss Eva Morgan of Springfield. Funeral services will be held at the home at 2 o'clock, Friday.

## ANNOUNCE ENGAGEMENT

Mrs. Lewis Gregg was hostess at a six o'clock dinner, Tuesday evening at which she took occasion to announce the engagement of Miss Helen Gregg to Mr. George W. Rickard. Miss Gregg is a daughter of Mr. and Mrs. William Gregg of South Detroit street, and her fiancé is a prominent young business man of Dayton, being the owner of several automobile accessories stores. Miss Gregg has been honored with several pre-nuptial affairs, one being a dinner given at Rikes Monday, by Mr. and Mrs. G. Raymond of Dayton. Their marriage will be quietly celebrated Thanksgiving day. They will reside in Dayton, where Mr. Rickard has purchased a beautiful home in Riverdale.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and prevent the food from becoming stagnant, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening griping cathartics are derived from Dr. Edwards' Olive Tablets without griping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

## NEVER IN THE WORLD COULD I BELIEVE IT.

This Lady Was Told by Many That Pepsinco Would Help Her, But She Just Would Not Believe It.

Mrs. G. wasn't sick, but she had the same trouble after every meal. Heavy load, pain, bloating and sourness. The condition would pass off in time, but she really dreaded her meals. She often read of Pepsinco, and often heard of it, but never gave it enough thought to stop at the drug store and get a package, until a druggist gave her a small sample.

Mrs. G. now recommends Pepsinco to everyone she meets who complains of feeling bad. Never has Pepsinco had as good a booster as this lady since she discovered how good it really is. Pepsinco is made to help all bad conditions of the stomach. It never fails. It is sold and recommended by all druggists. Positively guaranteed.

## Our Peril on the Eastern Front

NO. 1

Germany Schemes to Keep Loot in the East

By CLARENCE L. SPIED.  
(Written for and Approved by the War Committee of the Union League Club of Chicago.)

The greatest peril to America and to the world now lies on the eastern front. The tentacles of the German octopus, in spite of allied victories in the west, now have a strangle hold on the land from the Arctic ocean to the Black sea, and Germany's great "peace offensive" is designed to get out of the war if possible without losing what she has gained in the east.

Fifty-five million souls have been reduced to virtual slavery and 494,552 square miles of territory have been overrun by the Germans as a result of the war on the eastern front. A territory more than twice the size of the present German empire has come under German rule, and the population of the German empire itself is but a few millions greater than that of the lands which have fallen a prey to the Kaiser's armies or his intriguing diplomats.

### Would Keep Hold on East.

Germany can no longer hope for victory on the western front. The weight of America's millions at last is beginning to be felt, and the Kaiser's legions are moving backward. But Germany has not lost hope of keeping what she has gained on the eastern front. She believes that the attention of the allies can be distracted by large concessions in the west, and that her diplomats will succeed where her armies have failed, so that she will be able to retain her conquests to the east, organize and develop them with German efficiency, and then, when the time is ripe, strike again with a force which will be irresistible.

The lands which have come under absolute German dominion as a result of the war are:

	Area in Sq. Miles	Population
Finland	144,253	3,000,000
Estonia	7,718	500,000
Lithuania	18,100	1,500,000
Courland	10,535	750,000
Kovno	15,987	1,750,000
Russian Poland	49,130	11,500,000
Ukraine	163,249	26,500,000
Rumania	50,720	6,850,000
Serbia	35,000	4,000,000
<b>Total</b>	<b>494,552</b>	<b>55,250,000</b>

In addition the whole of Russia and Siberia will remain open to German exploitation unless the allied and Czech-Slovak armies are successful in expelling the troops of the central powers.

### Area More Than Doubled.

The area of the German empire itself before the war was but 208,780 square miles, and its population was about 68,000,000. Austria-Hungary, its ally and practical vassal, has an area of 288,977 square miles and a population of about 53,000,000.

Germany invaded poor deluded and disorganized Russia into a peace on the basis of no annexations and no indemnities, and then proceeded to take what she wanted on one pretext or another in the guise of setting up separate states whose independence would be but a political fiction. Finland she induced to revolt, at that sent German troops in to help Finland against the Russia with which she was at peace. The result is that Finland now is absolutely dominated by Germany; the Kaiser's troops are in control, and Finland has been proclaimed an "independent" and a German prince "elected" to the throne.

### Baltic a German Lake.

The Russian provinces of Estonia, Livonia, Courland and Kovno, lying along the Baltic, Germany proceeded to grab outright, and now proposes to annex directly to the German empire. This, with German domination of Finland, will make the Baltic practically a German lake.

Poland is to be another "independent" state, if the German plans do not miscarry, with a German or Austrian prince as king. Ukraine, with the exception of Poland, the richest part of Russia, is now nominally a republic, but German troops are in control and already there is talk of making it a kingdom ruled by a German prince. Rumania was forced to make a peace which gave Germany practical control, and since the treaty was signed Germany has been making new and harder conditions all the time and enforcing them at the point of the bayonet.

From all these states Germany will have gained an industrial and virile population which, if organized under the German plan, would furnish an addition of some 8,000,000 men to Germany's armies. The central powers, then, if allowed to keep these conquests, would be able, after a few years of rest and recuperation, to put an army of 30,000,000 men in the field, to feed and clothe them without calling upon the outside world, and to so dominate the avenues of communication that the remainder of the world would be at their mercy when they chose to strike again.

Laying aside all humanitarian reasons, that is why America and her allies cannot afford to make a peace until German militarism has been destroyed.

## BURNS LOOMS UP IN BANTAMS' CONTEST; DESERVES CHANCE AT PETE HERMAN NEXT

## Frankie Burns

Frankie Burns stands out in the race for the much-claimed bantam-weight title since he halted Kewpie Ertle of St. Paul the other night at Jersey City. Eastern critics would like to see him meet Dick Loadman and then Pete Herman. Of course they figure he can beat Loadman and then demand that the title go to the winner of the Burns-Herman bout.

## CEDARVILLE

Miss Ruth Ramsey returned to her school at Owensville, the first of the week.

Preaching services were held in all of the churches Sabbath day. Children under High School age were not permitted to attend.

Mr. and Mrs. Albert Huey and son, Ernest, and Mr. Robert Stewart, went to Mt. Cory, Saturday, and spent the week end with friends there.

The College and High School both opened Monday morning, after being closed six weeks on account of influenza.

Prugh McMichael met with quite an accident, Sabbath day. He was whittling with a large pocket knife, and somehow the knife slipped and the small blade entered the fleshy part of the left leg, above the knee, and severed a small artery. The wound bled profusely, but no serious results are anticipated.

Mrs. Fred Townsley and Miss Maude Hastings, returned to their school at Alpha, Monday.

Miss Florence Williamson, who teaches at Monessen, Pa., came home Saturday. Miss Alberta Creswell, who teaches there, came a week ago. They will not return until after Thanksgiving.

Herman McFarland of Dayton spent the week end with his parents, Mr. and Mrs. B. E. McFarland.

### Be Kind and Patient.

There is more special grace requisite and manifest in watchful perseverance in little kindnesses and habitual patience at home, in abstinence from conversational disparagement of others, and in resistance to habits of sloth and undue self-indulgence in private life than in the performance of great public duties under the observation of multitudes.

## LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take no chances! Move poisons from liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what ails your little one—be it full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## EAST END NEWS

Don't forget the N. A. A. C. P. concert Sunday at 2 p. m. at Zion. "Victory" is the pass word.

The total amount raised so far by the East End, Precincts G and H, is \$309.48. This is a splendid showing and the effort will be continued this week to give all of those who have not contributed to the Y. M. C. A. War Work a chance to do so. The campaign in these precincts is under the leadership of Rev. G. W. Beeton and Mr. R. E. Holmes.

St. John's A. M. E. choir practice tonight from eight to nine o'clock. All members please be present and on time.

There will be a regular meeting of Jabu Temple Thursday night at seven o'clock. By order Charles Jenkins Chief Mentor.

Mr. Thomas Phelps of Cleveland, who has been visiting his sister, Mrs. Ella Gee and family for a few days, returned home this morning. He is a baker on one of the large lake passenger steamers.

The Woman's Mutual Benefit Society will meet to-morrow, Thursday night, at the residence of Mrs. Gertrude Payne, at 7:30 o'clock. All members are urged to be present.

Fannie Brown, Sec'y.

### COLORED STUDENTS ENROLL

The more than 1,000,000 colored girls of the United States are being called to the colors by the Victory Girls' Division of the United States War Work campaign under the generalship of Miss Crystal Bird. Colored schools are responding splendidly to the student drive. Wilberforce sets its goal at \$1,000.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Back-achy or Bladder troubles you.—Salts is fine for Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

### Well Called Devil's Belt.

FORMER KAISER IS REPORTED CHEERFUL

Amsterdam, Nov. 20.—Dutch officials say the former kaiser is cheerful at all times and avoids any reference to the events transpiring in Germany.

Hollanders generally believe he has signed no formal abdication but merely came to Holland for personal safety and will reside here, if permitted, until the German national assembly decides upon the future form of government.

Contrary Mineral. Coal is a contrary critter. Instead of expanding generously, like water, in freezing weather, it contracts rapidly. The sensitive coal pile shrinks at the first touch of winter and, with the mercury at zero, when every respectable commodity is frozen stiff, the costly coal pile melts away like Simple Simon's snowball before the fire.

HOW TO FIGHT SPANISH INFLUENZA

By Dr. R. W. Bowers.

Avoid crowds, coughs and cowers but fear neither germs nor Germans. Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember a clean mouth, a clean skin, and clear bowels are a protecting armor against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloe, jalap, and sugarcoated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Iron Tonic (iron tonic) tablets, which can be obtained at most drug stores, or send 10c. to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. adv

SON OF FORMER XENIAN MANAGES BIG CITY THEATER

The following article appeared recently in the columns of the Washington Post and concerns Robert E. Long, son of a former well known Xenian, Everett Long, and nephew of Cliff Long.

TO MANAGE THE NEW RIALTO. Robert E. Long, one of the best known and most competent theatrical men in the city of Washington, has been appointed manager of Moore's Rialto Theater, rapidly nearing completion at the corner of Ninth and G streets northwest. With the opening of the new playhouse, which will be recognized at once as one of the most imposing structures of its kind in the United States, near at hand, Mr. Long has assumed the duties of his new position.

Bob Long is one of the veterans of the theatrical game in the National Capital, having a continuous record of 19 years to his credit. Born in Xenia, Ohio, in 1887, Mr. Long came to Washington in 1900, and at the age of 13 began at the bottom of the ladder as water boy at P. B. Chase's vaudeville house, now Poll's. From this humble beginning, and while pursuing his school studies during the daytime, the ambitious purveyor of the safest drink in the world, served successfully as card boy, usher, head usher, telephone boy in the box office, ticket seller, assistant treasurer and treasurer, all under the Chase management. As he succinctly expresses it, his term of service with Mr. Chase embraced every duty known to the theater except those of stage manager and musical director.

When on August 29, 1912, Chase opened his new theater, now known as B. F. Keith's, Bob Long participated in the new enterprise as house treasurer. On November 3, 1913, when Roland Robbins was made resident manager under the direction of the Keiths, Mr. Long's faithfulness was rewarded with the post of assistant manager, a position he has occupied continuously until his present appointment as manager of the new Rialto.

It is an interesting coincidence that while she herself has never been identified with the stage, Mrs. Long, who was Miss Agnes Ida Parkhurst, is the daughter of the late George Parkhurst, an English actor who was a member of Laura Keane's company playing at Ford's Opera House the night President Lincoln was assassinated. There are in the Long home many interesting photographs and mementoes of the engagement at Ford's that was made historical by a world tragedy.

Mr. Long, who is a member of the Kiwanis Club, a Shriner and a thirty-second degree Mason, will be in complete charge at the Rialto, and in the conduct of the new theater will be enabled to embrace the opportunity which all managers crave—that of being permitted to give expression to personal ideals or public service in a playhouse that presents the last word in comfort, beauty and luxurious embellishment.

NOT AFRAID OF MICE

Even mice fail to strike terror to the hearts of Victory Girls of Dayton, Ohio, who are pledging to earn and give \$5.00 each to the United War Work campaign. A band of girls is setting mouse traps at ten cents a mouse. Others are darning stockings, polishing shoes, caring for children, washing dishes, etc. "A Girl from This Home is enrolled for War Work," proclaims the window card displayed by every member of the Victory Girls' campaign.

ESTABLISH LEGATION. Rome, Nov. 19.—(Delayed)—The Czechs have established a legation at Palazzo Massimo, Italy.

In Lapland. In all parts of Lapland there is a numerous class of poorer Lapps whose herds of deer are too small to enable them to live on the mountains or to trust to them entirely for subsistence. These are called Wood Lapps and they live in the woods and forests that abound in the country. There are also the Fishing or Coast Lapps. These have a fixed abode, and if they wander it is only for a short distance.

IT'S NOT WHAT YOU EAT THAT DOES YOU GOOD.

High Cost of Living Solved By Using Pepsinco, a Systematic Method of Digestion.

Thousands of tons of food are wasted thru improper digestion of food. Many persons are using a new system of food digestion, not only because our government's food expert says that we shall conserve the food, but, also, the high price of food stuffs compels retrenchment. They find that a little food well digested will go farther and do more good than a large quantity poorly digested.

Pepsinco, this systematic method of digestion, is inexpensive and can always be relied upon. The dose is small and powerful. One little tablet will digest an ordinary meal. Everything will be assimilated. The meal will give you strength. No food will be wasted, once you start this treatment.

Stop at the drug store today and get a small package of Pepsinco.

VON HINDENBURG IS STILL LOVED BY HUNS

Washington, Nov. 20.—Field Marshal Von Hindenburg has moved general staff headquarters to Cassel, according to diplomatic advices here today.

Demobilization of the army will be conducted from there.

The workmen's and soldiers' council at Cassel issued a manifesto urging the people to show Hindenburg every honor while he is there.

"Never was Hindenburg closer to our hearts than now, while fulfilling his duty," the manifesto stated.

"His person is under our protection. We know that both the civilian and military population will only show that they honor him and will refrain from any manifestation on his respect."

STUDENTS SPEED UP

College students of Ohio have already subscribed \$45,000 in the United War Work campaign and in most schools the drive is just beginning. Ohio Wesleyan with \$10,157 still holds first place. St. Mary's, Dayton subscribed \$4,000, Cincinnati schools report a total of \$5,000 divided as follows: St. Xavier, \$1,000; Cincinnati Conservatory of Music, \$1,010; Mount St. Mary's Seminary, \$2,183; College of Mary, \$800.

The Main Question.

"Of course, you can support my daughter in the style to which she has been accustomed," said the weary-looking father, "but can you support her in the style to which she has been accustomed, but to which she feels that she is fully entitled to become accustomed?"

SAGE TEA DANDY. TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

Washington, Nov. 20.—The state department said today it knew of no food agreement with Germany and any rationing agreement would wait upon the arrival of Food Administrator Hoover abroad.

## FUNERAL SERVICES FOR MRS. HARRY CLARK

Many friends attended the funeral for Mrs. Harry Clark, jr., which were held at the home of her parents, Mr. and Mrs. G. W. Kaiser, on North Detroit street, Tuesday afternoon. Dr. J. H. Webster of the theological Seminary, conducted the service, and a quartette consisting of John W. Prugh, Bert Winter, Mrs. J. W. Prugh and Mrs. Arthur Perrell sang "Jesus Savior, Pilot Me," and "Lead, Kindly Light." Interment was made in Woodland, and the pallbearers were: Don Clark, Robert McKnight, James Cleaver, Samuel Wolf, John and Henry Kaiser.

## JAMESTOWN IS FIRST TO GO OVER THE TOP

To Jamestown and Silvercreek belongs the credit for "going over the top" first in the United War Work Campaign in Greene county. Under the able leadership of John Q. Adams, who was assisted by a splendid corps of workers the township and village reached its quota on Wednesday of last week. As Mr. Adams desired to continue the drive until Saturday night the fact that the township had gone over was not announced. When the campaign closed Mr. Adams was able to announce an over subscription of twenty per cent. In all the war campaigns that have occurred Jamestown has shown this splendid patriotic spirit to which the people of the entire county point with pride.

Jamestown township is also over the top and Miami township reports Wednesday morning that it has only \$200 more to raise. Other townships are also unofficially reported to have successfully completed their campaign. Official figures from all parts of the county will not be received until Wednesday night when the campaign officially closes. However if any district has not subscribed its full quota by Wednesday night it is the purpose of the committee to continue the campaign in those districts until the quotas are reached.

In Xenia city the work in the closing days of the campaign have been most gratifying. The official figures given out by the treasurer Wednesday morning were \$11,415.53. This in-

## YOU'D SMILE IF YOU WERE IN THEIR SHOES

Freed people of Sandermont and Canadian soldiers.

They're just like one big joyful family, these Canadian soldiers and residents of the little village of Sandermont, some twenty kilometers south-east of Arras. Why the happiness? Well the villagers have been liberated from the iron rule of the Huns after four years of oppression. And the Canadian soldiers—well, you'd feel pretty good, too, if you had made life worth living once more for a whole town. The soldiers are part of the Canadian force which drove the Germans from the village.

cludes all cash, pledges and promises of subscriptions. Therefore the city has yet to raise exactly \$1,684.47.

The executive committee makes an appeal to all solicitors to carefully go over their lists and ascertain if they have missed anyone in their territory and if so solicit them at once. Solicitors are also urged to seek additional

subscriptions from persons whom they think should have given more in their first subscription. Only a little more than a \$1,000 is needed to put Xenia over. After the magnificent effort that has already been made by the city the War Work Committee feels certain that no stone will be left unturned to put the campaign over.

## TAKE THE SOLDIERS' MIND AWAY FROM WAR

WHEN hostilities cease and the necessarily slow work of demobilization begins, the American soldier will wish himself many miles from the scenes of battle and the horrors of war, and the only things capable of taking the soldiers' minds away from these scenes are books and magazines. The American Library Association, which is one of the seven benevolent organizations participating in the United War Work Campaign, having for its object the raising of \$250,000,000 in the United States and its possessions, has established an automobile circulation library, shown herewith, which circulates books and magazines from camp to camp. The M. C. A., Knights of Columbus, Jewish Welfare Board, War Camp Community Service and the Salvation Army are the other co-operating organizations. Ohio's share in this campaign is \$15,800,000.

### CLIFTON

Dr. and Mrs. H. C. Foster visited the families of Mr. Frank Corry and Alfred Swaby, last Thursday. They left for their home in Forest, Ohio, Friday.

Mr. Bruce Anderson, Mrs. Sarah Griffith and Miss Grace Griffith are the latest victims of the "flu." Mrs. A. E. Swaby and Miss Coe will be hostesses for all the ladies of the Presbyterian church at the November Missionary meeting held at their home Friday afternoon, Nov. 23. Special program—one feature being a Missionary Play, will be given.

The Thanksgiving services will be held Thanksgiving morning at 9:30 o'clock at the U. P. church. Rev. Wm. McKinney will preach.

Mrs. Ivy Estle Davis, only daughter of Mr. and Mrs. Wm. Estle, was buried here Friday afternoon. She was born here nineteen years ago and spent her childhood here. After her marriage a year and a half ago, she resided in North Hampton. Her mother was buried here a few months ago.

During a severe electrical storm Saturday night, which put telephone and electric lights out of commission the house of Mr. J. W. Boodman, on North street, was struck by lightning. After hitting a tree, plowing a path across the side walk and demolishing the meter on the porch, the current entered the house—doing no further damage except knocking the plastering from the ceiling, upon the bed, where the two young daughters were asleep. Word was received here last week by Uncle Charlie McGee, of the death of his grandson, Sherman Dudley, on the field of battle in France. Young Dudley was born and spent his childhood in this place.

### SPRING VALLEY

The ladies of the Busy Dozen club motored to New Carlisle Saturday and spent the day with Mrs. C. B. Crane. Mrs. Frank Giltice who is ill at the home of her mother Mrs. Toner Underwood, is improving.

Mrs. Harley Hunt is very ill with pneumonia.

There will be an all day Rally and Thanksgiving service at the Friends church next Sunday, Nov. 24. All who have ever been members of the Sunday school and all who ever expect to be, are cordially invited to bring their lunch and spend the day.

Mrs. William Consey has returned from Springfield, where she has been caring for her daughter, Mrs. Earl Conyer.

Schools opened here last Monday. Mrs. C. M. Fulkerson is visiting her aunt Mrs. John Elam in Indianapolis.

Miss Bessie Fitch has been called to Georgetown owing to the death of her grandmother Mrs. Marshall. Mrs. Marshall is well known here having visited Mr. Wm. Fitch and daughter quite frequently.

### Athleticism in the East.

The general athletic awakening is perhaps the most important effect that our occupation of the Philippines has had upon the far East. Just as the old Olympic games, begun by one village, grew to be the great recurring event at which all the Hellenic peoples could meet in peaceful competition, so this modern athletic movement starting from Baguio has spread to other far eastern peoples, and has given them not only a ground for friendly meeting, but also a basis for genuine respect and mutual understanding.

## MASKS ARE WORN BY THOUSANDS IN INDIANAPOLIS

Indianapolis, Nov. 20.—An extended masked ball, staged by Old Man Influenza, was opened here this morning. Some thought Old Influenza was down and out, but he did a comeback turn, that caused all to hide their faces.

Invitations for the party were issued by the board of health and attendance was compulsory under pain of paying a forfeit of \$5.

Although the party will extend over several days, and maybe several weeks, there was little fear of scandal mongers and gossipers.

For Sale—Clean old newspapers—three pounds for five cents at this office.

## ARE ADVERTISED MEDICINES WORTHLESS?

There is no more reason to condemn all advertised medicines than there is to condemn all physicians or all druggists. Fakes there are in every profession and in every trade, but they do not last long. Take a medicine like Lydia E. Pinkham's Vegetable Compound, the true test of its merit is the fact that for forty years it has been relieving women of America from the worst forms of female ailments, constantly growing in popularity and favor, until it is now recognized as the standard remedy for female ills.

### No Time for That.

Kathryn came running to her mother, crying as though her heart would break. Between sobs she said that a dog had frightened her. Her mother, trying to divert her attention, said, "What kind of a tail did the dog have?" Kathryn sobbed, "Do you s'pose I stopped to look at his tail?"

## GREAT WELCOME AWAITS WILSON IN FOREIGN LAND

London, Nov. 20.—President Wilson is assured of the most cordial reception in every allied country, both from the people and from officials. There were many evidences today that the executive head of the American republic would receive a welcome such as has never before been accorded a foreign dignitary. Receipt of the news that he had definitely decided to personally attend the forth-coming peace conference served to make manifest the great respect and affection felt on this side for the man who has so clearly outlined the policies of the world democracies in the present war. It is understood here that while Wilson was so considering the advisability of a trip to this side of the Atlantic, both Lloyd-George and Clemenceau were urging him to come to the peace conference. It is believed his final decision was largely the result of their representations.

## ALLIES UNMOVED BY WHINING OF TEUTON LEADERS

BY CARL D. GROAT.  
Washington, Nov. 20.—That there is no actual danger of Bolshevism in Germany, but that Teuton leaders are over-playing its possibility for their own ends, is the official attitude of this government today toward the German situation.

This position was revealed by the state department.

It was pointed out that the semi-calm of recent days need not necessarily be significant. Russia started rather quietly, but when Bolshevism burst in its fullness, the nation went mad.

The state department scarcely expects events to follow the same sequence in Germany, for the intellect and training of the average German are higher than those of the Slav. It was pointed out that the Russian came out of actual serfdom only a few years ago. The German has not been a real serf, though he has been bound down by caste and by autocratic rule.

However, it was said that liberty for the Teuton probably will not prove as intoxicating as to the Russian. The chief element in the situation as seen by the state department is the danger that when the dead of winter comes there may be hunger through unequal food distribution. That, as President Wilson has pointed out, tends to anarchy.

So the state department feels that there is still a chance of genuine Bolshevism, with bad consequences in Germany.

On the other hand, the official giving the above points, added the suggestion that Germany was over-playing the possible menace in an effort to enlist sympathy for herself and to gain modification of armistice and peace terms.

"Looking at the matter from the German viewpoint, it seems quite the logical thing for them to do," said the authority.

He indicated, however, that neither this nation nor the allies are being unduly swayed by the Solf radio-gram, waiting for help and appealing for sympathy.

## BOLSHEVIKI PLOT UNCOVERED IN VIENNA

Copenhagen, Nov. 20.—A great communistic plot has been uncovered in Vienna, according to reports received here today.

It was planned to seize all public buildings and proclaim a Bolshevik government. Several hundred have been arrested.

**RETIRE OFFICER DIES.**  
Montreal, Nov. 20.—Rear Admiral Payard Speyers, U. S. N., retired, of New York, is dead here today following an extended illness.

He was 72 years of age, and a veteran of the civil and Spanish-American wars.

**CANADA TO DEMOBILIZE.**  
Montreal, Nov. 20.—Definite orders for the demobilization of all Canadian expeditionary forces in this military district have been received by Major General E. W. Wilson, from Adit. Gen. Ashton. There are 50,000 soldiers in this district.

## GREETINGS FROM ITALY

Rome, Nov. 20.—King Victor Emanuel has sent the following message of greetings to President Wilson and the American people:  
"I greet the people of the United States at this moment which marks for free democracy the realization of the ideals for which the great nation which is subject to your direction took up arms with the peoples who fought for independence and for the betterment of future humanity. For myself, my people, and the soldiers of Italy, I express to you and your noble nation the fullest admiration. I extend my best wishes for a durable friendship between our peoples."

## BOLSHEVIKI ARE REPULSED BY ALLIES IN HARD BATTLE

Archangel, November 13.—(Delayed)—Bolshevik forces have resumed their attacks against the American and British positions at Tulgas. They have been repulsed with severe losses.

On the morning of November 11, after a heavy bombardment from their gunboats and barges in the Dvina river, the Bolshevik infantry stormed the allied barbed-wire entanglements, and succeeded temporarily in reaching the gun emplacements of the Canadian artillery.

Tulgas is on the Dvina River south of where that stream is joined by the River Vaga. It is in the province of Archangel, a few miles west of the border between that province and the province of Vologda.

Washington, November 20.—There has been no change in the Russian and Siberian situation from a military standpoint, Secretary Baker states and no plans have been made either for sending additional American troops or for withdrawing any of the forces now operating in Siberia and European Russia.

## PERSHING IS BACKED FOR PRESIDENCY

Washington, Nov. 20.—A definite movement has been started by Republican leaders in congress looking toward the nomination of General John J. Pershing as the Republican candidate for president in 1920.

The promoters of the movement believe that "Black Jack" Pershing will prove as popular and irresistible a candidate as was General Ulysses S. Grant, following the victorious conclusion of the civil war.

The Pershing presidential movement is not a myth.

It is not idle speculation. It is backed by practical men who are not interested in General Pershing so much personally as they are in winning the election in 1920 and who are inspired by a very positive belief that General Pershing as a candidate for president would be invincible.

## AMERICANS TO CELEBRATE IN GOOD U. S. STYLE

New York, Nov. 20.—Two million American fighters in France will observe Thanksgiving and Christmas, home style, this year, according to information received here today by the Y. M. C. A. from Paris.

The program includes football games and regular old-fashioned celebration with cider, doughnuts, pumpkin pie and impromptu performances. On Christmas, soldiers will be given boxes containing sweets and cigarettes, and tobacco and Christmas trees will brighten the 1800 huts.

## COAL MINERS TO BE RELEASED AT ONCE

Washington, Nov. 20.—Orders issued by the war department today give anthracite miners in cantonments opportunity to return at once to civil life, if willing to go to work in the anthracite fields at once.

A total of 50,000 coal miners have been inducted into the army.

## JOY OF LIBERATED RESIDENTS REPAID ALLIED SOLDIERS FOR WORK IN FREEING FRENCH AND BELGIAN TOWNS OF HUNS

British troops entering Lille.

The joy of the inhabitants, grownups and little folk, of the towns retaken by the allies in their great drive that brought the war to an end, knew no bounds. The victorious allied soldiers on entering the towns were wildly cheered. Adults and children ran along beside the soldiers, taking hold of their arms and even hugging and kissing them. Girls fell into line and marched beside the heroes. The happiness the soldiers brought repaid them for their efforts. Note that they, too, are enjoying the celebration.

## "HURRAH FOR BELGIUM!" GERMAN TROOPS SHOUT

Paris, Nov. 20.—Demonstrations by German soldiers in Brussels on Sunday, the day before the armistice with Germany was signed, are described in the Journal la Belgique, a newspaper published in Brussels for four years under control of the German censorship, in its issue of November 11.

Thousands of soldiers, without arms, gathered in front of the North Station and formed a procession which marched through the North boulevard, carrying red and French flags. The populace, at first dumb with astonishment at the strange sight, enthusiastically cheered the soldiers carrying the French tricolor and shouting "Hurrah for Belgium!"

The procession halted at the Palace of Justice, where a meeting was organized and a banner raised on which was inscribed, "Comrades, do not fight any more! Do not shoot!"

A Belgian demonstration was then organized, in which the German soldiers joined with the Belgians in singing the "Brabanconne" and the "Marseillaise."

Automobile trucks, carrying German marines and decorated with Belgian flags, appeared on the Grand Place, where one of the marines spoke in praise of the Belgian King and his people.

Until late last night the President

discussed with senators, details of pending legislation and some of his ideas on reconstruction including the probable labor policy he will advocate and the need of building up and protecting a great American merchant marine.

He plans to sail for France Dec. 3, after delivering his annual message to congress on Dec. 2.

President Wilson and his party will go to Europe on a big transport, according to present plans. The particular vessel had not been chosen yet, Secretary Daniels said today.

The navy will provide a battleship and destroyer convoy as a guard of honor for the presidential ship.

It is proposed to take the entire peace delegation on the transport and hence a large vessel will be needed, it is stated.

Meanwhile the government is having many new problems presented for settlement at the peace table—particularly by neutrals who look to President Wilson as their friend. Neutrals confidently expect to send delegates to the conference. Unless they are formally invited to attend, they will ask permission to send representatives. The issues, neutral diplomats here say, are too vital to permit silence.

Antwerp, Nov. 19.—(Delayed)—King Albert and Queen Elizabeth entered Antwerp this morning amid a clamor of Cathedral Bells, and the shouts of the people. The streets were thronged and people packed the windows and sat on the roofs, despite the rain. The city was raily decorated with Belgian and allied flags.

**WANTS TO BE ANNEXED.**

## UNDERSEA SERPENTS NOW UNDER CONTROL OF BRITISH FLEET

Harwich, Eng., Nov. 20.—Twenty U-boats surrendered to Rear Admiral Tyrwhitt, thirty miles off Harwich, at sunrise this morning.

Tyrwhitt received the German surrender aboard his cruiser flagship. Twenty more U-boats will surrender tomorrow and Friday and the balance later.

Following the surrender the twenty submarines proceeded with their own crews to Harwich, where they were boarded by British crews. The Germans will return to their own country later, in a German transport.

Rear Admiral Reginald Tyrwhitt is commander of the destroying squadron of the first fleet.

Harwich is a seaport in Essex county on the east coast, 65 miles northeast of London. Its strongly defended harbor is one of the best in England.

Rome, Nov. 19.—(Delayed)—In conformity with the armistice, Admirals Cagni and Kock have taken over Pola harbor. The Austrian dreadnoughts Tagethof and Prinz Eugen are now flying the Italian flag.

The American naval mission, under Admiral Mayo just completed an inspection of the recent Italian war zone.

London, Nov. 20.—The allied armies of occupation are now well on their way to the Rhine.

Among the important cities re-occupied are Brussels, Antwerp, Metz, Saarburg, Elmar, Mulhausen, Zabern, Markirch and Neu Breisach.

The advanced elements now occupy the general line of Antwerp, Malines, Vilvoorde, Brussels, Hal, Senefelt, Charleroi, Florennes, Bourzeigne, Offagne, Betrix, Strimont, Stalls, St. Leger, Athus, Audun Le Roman, Metz, Morhange, Dieuze, Saarburg, Zabern, Wassenheim, Moislheim, Neu Breisach, and the line of the Rhine to the Swiss frontier.

## LORRAINE NOW PROTECTED BY MOTHER FRANCE

Metz, Nov. 19.—(Night)—The nightmarish of German domination in Lorraine ended today and this historic city is tonight under the protection of Mother France.

Metz was formally taken over by the French today when Marshal Pétain reviewed the tenth army before the statue of Marshal Hey.

French civilians and a majority of the Lorrainers were wildly enthusiastic during the ceremonies this afternoon, while a small pro-German minority looked passively on.

General Mangin, injured in a fall from a frightened horse, was unable to share in honors of occupation.

The crowds cheered the veteran Pétain and aviators swooped over head. One of the machines crashed over head into the crowded square, but, miraculously, only a few persons were injured.

Numbers of children shouted "Vive La France," not knowing any other French words, because of the German laws forbidding the teaching of that language.

The last of the Germans had departed Sunday. The soldiers revolted and the officers were shorn of their chevrons and belts before the civilians. There were no signs of disorder other than that four statues of Wilhelm were broken.

Shops and restaurants are busy. Food was plentiful and substantial, with the exception of bread.

There were no wild demonstrations after the military review, the French element remaining quietly happy. The few Germans appeared resigned.

## RETURN OF KAISER IS EXPECTED SOON

Copenhagen, Nov. 20.—At Potsdam it is expected that the former kaiser will soon return, a Berlin dispatch stated today.

The former kaiser is staying at Prince Eitel Friedrich's palace at Ingelheim.

The former crown prince's family will remain at Potsdam.

## CHURCHES TO FALL LIKE LEAVES SAYS BISHOP NICHOLSON

Chicago, Nov. 20.—"Crowns are falling like leaves," now churches will fall like crowns," Bishop Thomas Nicholson, of the Methodist church, told the United Press today.

Optimistic as to the future of religion, Bishop Nicholson, claimed to see no hope for the established church self-centered and concerned only with its members.

"I know there are church-men who are pessimistic over the future of the church," Dr. Nicholson said. "The see in the coming period a relaxation from the tension of war and consequent losses to the church. I am not that number."

"There is much to be done in the battle area and there is service to be performed in countries to which the Americans will go after the war. The church which has a genuine social reconstruction program will make preparations to care for needs. It will prosper in numbers and in money. The others will be in precarious shape."

## AMERICA AND ENGLAND WILL FIGHT SIDE BY SIDE IN THE FUTURE

Chicago, Nov. 20.—America and England will fight side by side again, if there is ever another war according to Archbishop Mundelein.

Speaking at a dinner here last night in honor of Rt. Rev. F. W. Keating, bishop of Northampton, England, Mgr. M. C. DeWalt, Belgian priest and special envoy of King Albert, the very Rev. Mgr. A. S. Barne, bishop of Oxford, Arch-Bishop Mundelein said:

"This war has brought the United States and England closer than ever before. It is years to come, another war should break out, it will find the two English speaking countries fighting side-by-side."

Mrs. DeWalt, who witnessed the German entry into Belgium, in a burning address, characterized the Kaiser's hosts as "beasts in a very, patriotic defeat."

## MERGER OF TWO SEMINARIES IS UP FOR DECISION

Question of the merger of Xenia Theological Seminary with the Pittsburgh Seminary was set for discussion Wednesday morning by the Second Synod of Ohio of the United Presbyterian church, which convened Tuesday night at the First United Presbyterian church, Dayton.

A report on the matter was to be presented to Synod by the special committee which was appointed at the last session of Synod to investigate and report the question of a merger. The matter has been up before various Synods of the church at several different times, but no decision on a consolidation was ever reached. The general sentiment is apparently against a merger of the two schools and it is not expected that the Synod now in session in Dayton will favor the merger. The consolidation of the schools would mean the removal of Xenia seminary.

Dr. J. H. Webster, retiring moderator of Synod, gave an address at the opening session. Dr. Joseph Kyle, president of Xenia seminary, delivered an address Wednesday morning. Dr. Jesse Johnson, of the seminary, is also attending the sessions. Officers for the ensuing year elected by Synod Monday night are: Moderator, Rev. E. B. McClellan, of Belle Center; Vice Moderator, Prof. John E. Bradford, Oxford. The Rev. John A. Henderson, pastor of the Sugar Creek church, retains his office as stated clerk.

## HENRY PROCTOR PLEADS GUILTY TO STEALING CIGARS

Henry Proctor, colored, employed for a week or ten days as porter at the Mullen barber shop and cigar store, is under arrest at the police station charged with stealing 29 boxes of cigars from his employer. Proctor has confessed to stealing the cigars but has not been arraigned as yet. It has not been determined whether to charge him with petit or grand larceny.

While employed at Mullen's store Proctor stole the lock off the cellar door and that night slipped into the cellar and carried away the cigars. He took them to the restaurant at the depot where he posed as a former Pullman porter and declared he had a lot of cigars on hand which he wanted to sell. The proprietor of the restaurant believed his story and bought the cigars.

## SPANISH INFLUENZA—JUST GRIP CAMOUFLAGED UNDER A NEW NAME

Most Authorities Now Agree That This Disease is Simply the Old-Fashioned Grip, the Same That Has Swept Over the World Times Without Number. Since 1831 the United States Has Had Five Epidemics.

The Last Epidemic in 1889-90 Came from Russia by Way of France and Was Given a French Name, La Grippe. This Time It Comes by Way of Spain.

Spanish Influenza, which appeared in Spain in May, has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C., which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

Grip, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

## THE TREATMENT

Go to bed at the first symptoms—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Nature herself is the only "cure" for influenza and will throw off the attack if only you conserve your strength. A little Quinine, Aspirin or Dover's Powder may be given by the physician's directions to allay the aching. Always call a doctor, since the chief danger of grip is in its weakening effect on the system, which allows complications to develop. These are chiefly pneumonia and bronchitis, sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days or more, according to the severity of the attack.

## EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grip germs, it is best to use a remedy in the form of a vaporizer, or by making the breathing easier, Vick's VapoRub will be found effective. Hot wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then

VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloth. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates the skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

## NO OCCASION FOR PANIC.

There is no occasion for panic—influenza or grip has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally patients in a run down condition—those who don't go to bed soon enough, or those who get up too early.

## HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds—which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food.

## KEEP FREE FROM COLDS.

Above all, avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea-kettle. Fill half-full of boiling water, put in half a teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubeb, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors. VapoRub can be had in three sizes at all druggists. While comparatively new in certain parts of the North it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's colds or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects. adv

## THE QUICK WAY TO STOP A COUGH

When you have a severe, stubborn cough or cold, you need the best possible medicine you can get. Why not, therefore, get one that is guaranteed the most soothing and satisfactory remedy ever used, or get your money back? Druggists everywhere are authorized to refund money if SCIFFE-MANN'S EXPECTORANT is not found the very best ever used for Coughs, Colds, Bronchitis, Croup, Whooping Cough or Hoarseness. When mixed at home with honey or sugar syrup, 50 cents worth makes 61 teaspoonfuls. Positively contains no chloroform, opium, morphine or any other narcotic, and is unlike any other cough medicine. **EMPHATICALLY ASSERTS WORN OUT, LAGGING MEN CAN QUICKLY BECOME VIGOROUS AND FULL OF AMBITION 7 A DAY FOR 7 DAYS**

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, you can quickly be made into a real live, energetic and even ambitious man. So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any druggist. This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks. No matter from what cause your nerves went back on you; no matter how run down, nervous or tired you may get, get an original package of Bio-feren at once at Sayre & Hempel's. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone. Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned. Note to Physicians: Bio-feren is secret about the formula of Bio-feren, it is printed on every package. Here it is: Leeching, Calcium Glycophosphate, Iron Peptonate, Magnesium Peptonate, Ect. Nux Vomica, Powdered Gentian, Phenolphthalein, Oleoresin Capsicum, Kola. adv

## RUDOLPH S. WOLF, OF JEFFERSON TOWNSHIP, LOSES LEG IN FRANCE

The following letter from Rudolph S. Wolf, of Jefferson township, this county, as written to his mother, Mrs. R. H. Wolf, gives a clear conception of the kind of stuff the American soldiers are composed of. He has lost a leg in fighting and his letter which bears the information to his family shows the true American spirit which has carried the American army to victory. It is the spirit which never could have been beaten as long as an American soldier was left to carry a gun.

### A HOME RECIPE FOR GRAY HAIR

How to Make an Inexpensive Mixture That Will Darken Streaked or Faded Gray Hair.

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

Merely get a small box of Orlex powder at any drug store. It costs very little and no extra to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

You need not hesitate to use Orlex, as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives.

It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray haired person look twenty years younger.

in September was transferred from there to Virginia. On January 20th he sailed for France and was with the Marines in the battle of Chateau Thierry and helped start the Huns "back to Berlin." He was gassed at Belleau Woods on June 14th and was in the hospital for seven weeks, returning to duty August 8th. On September 15th he was wounded and again taken to the hospital at Bordeaux, France. There he met another Greene county boy, Lieutenant R. C. Austin, of Bellbrook.

His letter follows:

October 22nd, 1918.

With the U. S. Marines, A. E. F.

Dear Mother—Well I expect you think I am dead by this time, but far from it. I am in a whole lot better condition than I was when I wrote you last, which has been nearly, if not over three weeks. You have no doubt received Lieutenant Austin's letter of a couple weeks ago. I have gone through a whole lot since I came to this hospital. I do not know whether the censor will pass this or not.

I expect to be back in Uncle Sam's land in less than three months, and help eat all that canned goods you folks are putting up, and help eat some of those winter frys you wrote about in your letter. I received nine letters the other day. Well I expect you are wondering what is bringing me back. Well it is an amputation, I had several hemorrhages and they had to amputate just above the knee. I am sitting up in bed, and getting as fat as a pig. I lost lots of blood but the boys gave me some of theirs and they fixed me up all o. k. I said to the doctor the other day, "well it is just three weeks until Thanksgiving. I hope to be up by that time." He said you will be away from this hospital and maybe on the way home. Now mother don't worry I am all o. k. and have done my duty for God and Old Glory and Uncle Sam takes care of his boys, and in less than a year I will be walking on my new leg and you could hardly tell the difference. I am glad it is not an arm. So don't worry. Rejoice and be glad that I am happy and we will all be home together before many months. With love to all. From your soldier boy

RUDOLPH.

## NEUTRALS WANT BLOCKADE LIFTED

Washington, Nov. 20.—Neutrals are expected shortly to urge a lifting of the allied blockade, according to diplomatic intimations here today.

With the war virtually over they are getting restive under ironclad restrictions imposed by the allies to keep supplies from filtering through to Germany.

“Above, not against.”

We may not be able to dissipate the forces which war against us, but we can strengthen the forces which range themselves for us. We may not be able to change the conditions in which we must live, but we can train ourselves to be more brave and patient in their endurance; to keep our spirits above them, instead of in constant irritation against them.

## OHIO NATIONAL GUARD IS NOT TO BE RE-ORGANIZED

Columbus, Nov. 20.—There will be no re-organization of the Ohio National Guard as before the war, Gov. Cox stated today on his return from Washington where he conferred with Secretary of War Baker on the subject.

“A state guard, financed by state funds and using such equipment as the federal government may issue, will probably take its place,” the governor said. “The federal government, according to present plans is not desirous of having the state guards, financed by it reorganized.”

## PRESIDENT MUST HAVE PASSPORTS

Washington, Nov. 20.—With the wartime regulations still in effect, President Wilson cannot leave the country for Europe without a passport. It is possible, however, that foreign governments and this government will relax the regulations as a matter of courtesy in the case of the President and Mrs. Wilson. The question has not yet come up for decision in the state department.

### LEAGUE OF NATIONS TO ENFORCE PEACE.

For a long time past one of the questions which has often appeared in the papers has been: "After the war, What?" Well, of course, we didn't then think that the war was going to collapse so quickly. We, not on the firing line, now that it is over, think of it as rather a sudden termination, but of course know that it was dragging along slow enough to the poor boys over there, who were enduring the hardships of the frightful conflict.

But, within a few weeks, we had the call for the armistice from the Huns, assembled the armistice body, gave them the terms, had these accepted, and as "to the victors belong the spoils," now the Allies are busy taking account of the captured stock. The next thing is the "laying down the law" to the world despoilers—or in other words the "Peace Table"—meeting out to them their punishment for past crimes and fixing conditions for their future behavior. They are infamous criminals against the laws of nations and against all the instincts of humanity. They can never be punished as they deserve, but we will aim to make them "walk-chalk" in humiliation before the world.

The "Peace Table," we now know, is to assemble at Versailles, a suburb of Paris, former palace of royalty, in December (how important events crowd each other) and that President Wilson will head this country's delegation to the conference. By common consent and approbation of all the allies the President will assume the leading role at the momentous conference.

There are two outstanding reasons, it is said, why the President's attendance is necessary at the peace conference. He desires to preserve the unity of counsel that brought victory to the allies and America on the battlefield, and which characterized the sessions of the Supreme War Council at Versailles, and he also desires to make secure the foundations of a League of Nations. The latter is his plan for world and lasting peace, and he is so strongly convinced of its efficacy that he is going to Europe to put it into concrete form.

The end of the war puts upon the great Powers and upon the people of the United States, the formation of a league of free nations to enforce future peace.

The pressing imminence of the issue of a league is not as fully understood in this country as it is in Great Britain, in France and Italy. The movement was initiated in the United States in 1915 by the formation of the American League to Enforce Peace; of which Ex-President Taft is the President.

The League of Nations, in England, France and Italy has become the slogan of workmen and common people and they will brook no hesitation on this subject by the representatives of their countries in the Peace Congress.

The convention of the Wisconsin League to Enforce Peace held at Madison a week or so ago, was rendered interesting by the many thoughtful addresses there delivered. The speeches which attracted most attention were delivered by Mr. A. M. Simons, chairman of the American Social Democratic Commission, which visited Europe some months ago, and Mr. John P. Frye, editor of the Molders' Journal and executive officer of the Molders' Union, who was a member of both labor commissions which visited Europe, the last one with Mr. Gompers as its chairman.

The part of the addresses most interesting to their hearers was their description of the way in which the League of Nations to Enforce Peace had taken hold of the mind and imagination of the working class of all the Socialists and of all the plain people of the Allied countries. They described it as a passion for the league. The demand for it has grown out of the lessons of the war which death, destruction and suffering have burned into the hearts of the people. A demand for a league to enforce peace is now made by organized labor in this country. Wherever the issue is discussed it commands the attention and support of American audiences.

Now that the issue is on, now that it has become a real political question to be acted on, it would be well for those who seek to promote the will of the people to regard it as a serious question and to give the league all the support which they are capable.

### THE DRY FIGHT IN CINCINNATI.

Because Cincinnati has occupied such a conspicuous place in the history of prohibition elections in Ohio, its conduct at the late election will be of interest. Last year the vote in Hamilton county stood thus: Wet, 83,288; dry, 26,307; wet majority, 56,981. This year the vote was: Wet, 72,494; dry, 19,724; wet majority, 52,770. The net gain of the drys was therefore 4,211. The notorious Eighth Ward increased its dry vote, while the residence districts on the hills and in the suburbs fell off as much as twenty-five dry votes to the precinct. The increased dry showing is due largely to a more honest count. For instance, in a certain precinct of Ward 8 last year the wets polled 198 and the drys 1; this year the wets had only 98 and the drys 2. Every precinct in the down-town section had challengers and inspectors in them for the first time.

### "THE WIFE"

#### RUTH FINDS BRIAN'S MESSAGE TO MOLLY.

CHAPTER XCIII.  
Tears filled Ruth's eyes as she threw her arms around her old mammy.

"I was going to surprise him, mammy! I thought he would be so pleased."

"Don't yo go fer to spise him no time, honey. He ain't comin' home much when yo's away. He sholy ain't!"

Ruth wanted to ask mammy about the number of evenings Brian had spent out while she was away, but bit her lip to keep the questions back. Not even to old mammy, who had known and loved her all her life, would she express curiosity about her husband, or seem to pry into his intentions.

"Go tak yo things off, honey. I'll git yo some dinner in a jiffy." Ruth did as Rachel told her. But she could eat very little of the tempting dinner Rachel brought her. She was so disappointed that she could scarcely keep the tears back; yet Brian might come in at any moment and he must not find her crying.

Her dinner finished, she could set herself at nothing, although she tried to read. But her thoughts were constantly straying, always Brianward.

"I'll write Aunt Louisa" she said aloud, and moved over to her desk. Idly she fingered the blotter, then her attention was arrested by the heavy lines blotted upon it. She smiled as she thought: "Brian has been using my desk to write—perhaps he wrote me again last night." Brian's lavish use of ink had always rather amused Ruth. His bold chirography with the heavy shaded lines was unmistakable. Now she looked closely at the blotter. At first she only made out a word here and there—"dear" and "Rachel" and "trouble."

"He was writing me," Ruth said aloud. "I wish I had telegraphed him. Perhaps he was lonely he went to the theater or a movie."

Again she bent over the blotter. This time more carefully. Without much trouble, she finally had the entire note Brian had written Molly, before her. That is, enough of it to know it was not intended for her.

"Don't call me house again, dear Rachel—understand—tell—make trouble."

The missing words made Brian's meaning different altogether from what he had intended to convey to Molly. He had said "Rachel might not understand" but the "not" was undecipherable. "Who could this note be intended for?" Ruth asked herself, the answer already in her mind: "Mollie King."

But what was it that Rachel would understand, and make trouble about? And he called her "dear"—had warned her not to call the house because of this fear that old mammy might understand something he didn't want her to know. Of course she would be apt to repeat to Ruth anything she thought her young mistress should know, of what went on while she was away.

"What can I do?" Ruth moaned, resting her head on her hand while tears dropped upon the blotter which had told her so much. "What shall I do? I love you so, and you care for her."

Ruth really considered what she had read, proof that Brian was doing

### MOTORAIDS

something of which she would disapprove—that would make trouble between them if she knew. What could it be, save that he was fond of someone else—Mollie? Probably? But never had objected to anything else he did; never once found fault with him. And only once had she spoken of his intimacy with Mollie.

"Oh, Brian!" laying her head down on her folded arms, she sobbed until Rachel, hearing, came in to comfort her.

"Don't cry, honey! he'll be home soon, he sholy will."

"I can't help it, Rachel. I am so disappointed. I wanted to surprise and please him. And"—she broke out afresh.

"That honey! Yo member what ole Rachel tells ya. Don't spise folkses. Tain't de ting to do honey."

"I never shall again," Ruth returned. "I am going to take a bath and go to bed. You go to bed, Rachel. I won't cry any more."

Rachel drew the bath for Ruth, made her bed ready, then went to her own room muttering things which could Brian have heard, he would have found anything but complimentary. In fact she called down all sorts of punishments on his head for making "missy Ruth" cry.

Ruth was tired with her journey and the excitement caused by giving way to her emotion. She dropped off to sleep about midnight. But when the clock struck four it awakened her. She heard a light to be sure she had heard right. Yes, it was four o'clock, and Brian had not yet come in.

In agony, she said the sentence she had found on the blotter over and over. Then again weeping bitterly, she arose and sat in a chair by the window to watch for his coming. Tomorrow—Brian remains Out All Night. Ruth Is Anxious.

"When I take a girl home from an entertainment, should I not thank her for going with me?" asked George. "No, it is not necessary to thank a girl for her company after you have taken her home from an entertainment. She should thank you," said his brother.

#### Linings.

An average woman doesn't care anything about the silver linings of clouds if only her own gown is silk lined.

the point of contact of the tire with the ground. Starting in front of the axle, turn both wheels so the valve stems are at the same position back of the axle. Then, if in perfect alignment, the back of a thirty-four inch wheel should be three eighths of an inch wider. The steering knuckles are so constructed that the difference between the tops of the front wheels is from one and three quarters to two inches greater than the distance between the point of contact on the ground.

### TOO TIRED TO WORK?

If you get up in the morning tired, if you weary with little exertion and if you find that your liver is torpid, one dose of Schenck's Mandrake Pills will "wake up" that lazy liver and make you feel like new. Schenck's Mandrake Pills are worth a trial tonight.

## MRS. BOWMAN HUNT DIES ON TUESDAY

Mrs. Pearl I. Hunt, wife of Bowman Hunt, died at her home, 50 Trumbull street, at 11:30 Tuesday forenoon, after one week's illness of influenza, followed by pneumonia.

Mrs. Hunt was married July 10, 1901. She is survived by her husband, three children, Lawrence, Irma and Marjorie; her mother, Mrs. Elizabeth LeValley of Springfield, and two sisters, Mrs. Ethel Kogler of Xenia, and Miss Eva Morgan of Springfield. Funeral services will be held at the home at 2 o'clock, Friday.

## ANNOUNCE ENGAGEMENT

Mrs. Lewis Gregg was hostess at a six o'clock dinner, Tuesday evening at which she took occasion to announce the engagement of Miss Helen Gregg to Mr. George W. Rickard. Miss Gregg is a daughter of Mr. and Mrs. William Gregg of South Detroit street, and her fiancé is a prominent young business man of Dayton, being the owner of several automobile accessories stores. Miss Gregg has been honored with several pre-nuptial affairs, one being a dinner given at Rikes Monday, by Mr. and Mrs. G. Raymond of Dayton. Their marriage will be quietly celebrated Thanksgiving day. They will reside in Dayton, where Mr. Rickard has purchased a beautiful home in Riverdale.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently on the bowels and liver stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without an ounce of the bad after effects.

All the benefits of nasty, sickening gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

## NEVER IN THE WORLD COULD I BELIEVE IT.

This Lady Was Told by Many That Pepsinco Would Help Her, But She Just Would Not Believe It.

Mrs. G. wasn't sick, but she had the same trouble after every meal. Heavy load, pain, bloating and sourness. The condition would pass off in time, but she really dreaded her meals. She often read of Pepsinco, and often heard of it, but never gave it enough thought to stop at the drug store and get a package, until a druggist gave her a small sample.

Mrs. G. now recommends Pepsinco to everyone she meets who complains of feeling bad. Never has Pepsinco had as good a booster as this lady since she discovered how good it really is. Pepsinco is made to help all bad conditions of the stomach. It never fails. It is sold and recommended by all druggists. Positively guaranteed.

## Our Peril on the Eastern Front

Germany Schemes to Keep Loom in the East

By CLARENCE L. SPEED. (Written for and Approved by the War Committee of the Union League Club of Chicago.)

The greatest peril to America and to the world now lies on the eastern front. The tentacles of the German octopus, in spite of allied victories in the west, now have a strange hold on the land from the Arctic ocean to the Black sea, and Germany's great "peace offensive" is designed to get out of the war if possible without losing what she has gained in the east.

Fifty-five million souls have been reduced to virtual slavery and 494,552 square miles of territory have been overrun by the Germans as a result of the war on the eastern front. A territory more than twice the size of the present German empire has come under German rule, and the population of the German empire itself is but a few millions greater than that of the lands which have fallen a prey to the Kaiser's armies or his intriguing diplomats.

Would Keep Hold on East.

Germany can no longer hope for victory on the western front. The weight of America's millions at last is beginning to be felt, and the Kaiser's legions are moving backward. But Germany has not lost hope of keeping what she has gained on the eastern front. She believes that the attention of the allies can be distracted by large concessions in the west, and that her diplomats will succeed where her armies have failed, so that she will be able to retain her conquests to the east, organize and develop them with German efficiency, and then, when the time is ripe, strike again with a force which will be irresistible.

The lands which have come under absolute German dominion as a result of the war are:

Area in Sq. Miles	Population
Finland.....144,253	3,000,000
Estonia.....7,718	500,000
Livonia.....18,160	1,500,000
Courland.....10,535	750,000
Kovno.....15,987	1,750,000
Tuesday Poland.....49,120	11,500,000
Ukraine.....163,249	26,500,000
Rumania.....50,720	8,500,000
Serbia.....35,000	4,000,000
<b>494,552</b>	<b>55,250,000</b>

In addition the whole of Russia and Siberia will remain open to German exploitation unless the allied and Czechoslovak armies are successful in expelling the troops of the central powers.

Area More Than Doubled.

The area of the German empire itself before the war was but 208,780 square miles, and its population was about 68,000,000. Austria-Hungary, its ally and practical vassal, has an area of 238,977 square miles and a population of about 53,000,000.

Germany invaded poor deluded and disorganized Russia into a peace on the basis of no annexations and no indemnities, and then proceeded to take what she wanted on one pretext or another in the guise of setting up separate states whose independence would be but a political fiction. Finland she induced to revolt, at her own German troops in help Finland against the Russia with which she was at peace. The result is that Finland now is absolutely dominated by Germany; the Kaiser's troops are in control, and Finland has been proclaimed an "independent" and a German prince "elected" to the throne.

Baltic a German Lake.

The Russian provinces of Estonia, Livonia, Courland and Kovno, lying along the Baltic, Germany proceeded to grab outright, and now proposes to annex directly to the German empire. This, with German domination of Finland, will make the Baltic practically a German lake.

Poland is to be another "independent" state, if the German plans do not miscarry, with a German or Austrian prince as king. Ukraine, with the exception of Poland, the richest part of Russia, is now nominally a republic, but German troops are in control and already there is talk of making it a kingdom ruled by a German prince. Rumania was forced to make a peace which gave Germany practical control, and since the treaty was signed Germany has been making new and harder conditions all the time and enforcing them at the point of the bayonet.

From all these states Germany will have gained an industrious and virile population which, if organized under the German plan, would furnish an addition of some 8,000,000 men to Germany's armies. The central powers, then, if allowed to keep these conquests, would be able, after a few years of rest and recuperation, to put an army of 30,000,000 men in the field, to feed and clothe them without calling upon the outside world, and to so dominate the avenues of communication that the remainder of the world would be at their mercy when they chose to strike again.

Laying aside all humanitarian reasons, that is why America and her allies cannot afford to make a peace until German militarism has been destroyed.

\*Figures from 1910 edition of Encyclopedia Britannica, corrected and estimated to round numbers, taking into account natural increase in population and parts of provinces where boundaries are indefinite. \*\*A great part of Serbia has been proclaimed during the last few weeks, the allied victories there being the first step toward erecting a barrier against Teutonic in the East.

## BURNS LOOMS UP IN BANTAMS' CONTEST; DESERVES CHANCE AT PETE HERMAN NEXT

Frankie Burns

Frankie Burns stands out in the race for the much-claimed bantam-weight title since he halted Kewpie Jersey of St. Paul the other night at Jersey City. Eastern critics would like to see him meet Dick Loadman and then Pete Herman. Of course they figure he can beat Loadman and then demand that the title go to the winner of the Burns-Herman bout.

## CEDARVILLE

Miss Ruth Ramsey returned to her school at Owensville, the first of the week.

Preaching services were held in all of the churches Sabbath day. Children under High School age were not permitted to attend.

Mr. and Mrs. Albert Huey and son, Ernest, and Mr. Robert Stewart, went to Mt. Cory, Saturday, and spent the week end with friends there.

The College and High School both opened Monday morning, after being closed six weeks on account of influenza.

Prugh McMichael met with quite an accident, Sabbath day. He was whittling with a large pocket knife, and somehow the knife slipped and the small blade entered the fleshy part of the left leg, above the knee, and severed a small artery.

The wound bled profusely, but no serious results are anticipated.

Mrs. Fred Townsley and Miss Maude Hastings, returned to their school at Alpha, Monday.

Miss Florence Williamson, who teaches at Monessen, Pa., came home Saturday. Miss Alberta Creswell, who teaches there, came a week ago. They will not return until after Thanksgiving.

Herman McFarland of Dayton spent the week end with his parents, Mr. and Mrs. B. E. McFarland.

Be Kind and Patient.

There is more special grace requisite and manifest in watchful perseverance in little kindnesses and habitual patience at home, in abstinence from conversational disparagement of others, and in resistance to habits of sloth and undue self-indulgence in private life than in the performance of great public duties under the observation of multitudes.

## LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take no chances! Move poisons from liver and bowels at once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat, if you feel Back-ache or Bladder troubles you—Salts is fine for Kidneys

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's uric acid waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

# MISS GRACE RHUBERT BECOMES BRIDE OF SPRINGFIELD MAN

Miss Grace Rheubert, daughter of Mr. and Mrs. Edward Rheubert of Reynolds street, became the bride of Albert McCutcheon of Springfield, the ceremony being performed by the Rev. Homer C. Biddlecum at the parsonage of the Friends' church, Monday evening, at 5 o'clock. The bride wore a frock of dark blue satin with white collar and hat to match. They were unattended.

Mr. and Mrs. McCutcheon were guests of the bride's parents until Tuesday evening, when they went to Springfield, where they will live, and

where their apartment was ready for occupancy.

Their wedding had been planned for an earlier date, but was delayed because the bride-elect fell ill of influenza.

Mr. McCutcheon is a machinist employed by the Crowell Publishing Company. Mrs. McCutcheon has been employed at the Home Telephone Exchange in Springfield for over a year.

## FORMER KAISER IS REPORTED CHEERFUL

Amsterdam, Nov. 20.—Dutch officers say the former kaiser is cheerful at all times and avoids any reference to the events transpiring in Germany.

Hollanders generally believe he has signed no formal abdication but merely came to Holland for personal safety and will reside here, if permitted, until the German national assembly decides upon the future form of government.

**Contrary Mineral.**

Coal is a contrary critter. Instead of expanding generously, like water, in freezing weather, it contracts rapidly. The sensitive coal pile shrinks at the first touch of winter and, with the mercury at zero, when every respectable commodity is frozen stiff, the costly coal pile melts away like simple Simon's snowball before the fire.

## HOW TO FIGHT SPANISH INFLUENZA

By Dr. R. W. Bowers.

Avoid crowds, coughs and colds but fear neither germs nor Germans. Keep the system in good order, take plenty of exercise in the fresh air and practice cleanliness. Remember: a clean mouth, a clean skin, and clear bowels are a protecting armor against disease. To keep the liver and bowels regular and to carry away the poisons within, it is best to take a vegetable pill every other day, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets. If there is a sudden onset of what appears like a hard cold, one should go to bed, wrap warm, take a hot mustard foot-bath and drink copiously of hot lemonade. If pain develops in head or back, ask the druggist for Anuric (anti-uric) tablets. These will flush the bladder and kidneys and carry off poisonous germs. To control the pains and aches, take one Anuric tablet every two hours, with frequent drinks of lemonade. The pneumonia appears in a most treacherous way, when the influenza victim is apparently recovering and anxious to leave his bed. In recovering from a bad attack of influenza or pneumonia the system should be built up with a good herbal tonic such as Dr. Pierce's Golden Medical Discovery, made without alcohol from the roots and barks of American forest trees, or his Iron Tonic tablets, which can be obtained at most drug stores, or send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. adv

## SON OF FORMER XENIAN MANAGES BIG CITY THEATER

The following article appeared recently in the columns of the Washington Post and concerns Robert E. Long, son of a former well known Xenian, Everett Long, and nephew of Cliff Long.

**TO MANAGE THE NEW RIALTO.**

Robert E. Long, one of the best known and most competent theatrical men in the city of Washington, has been appointed manager of Moore's Rialto Theater, rapidly nearing completion at the corner of Ninth and G streets northwest. With the opening of the new playhouse, which will be recognized at once as one of the most imposing structures of its kind in the United States, near at hand, Mr. Long has assumed the duties of his new position.

Bob Long is one of the veterans of the theatrical game in the National Capital, having a continuous record of 19 years to his credit. Born in Xenia, Ohio, in 1887, Mr. Long came to Washington in 1900, and at the age of 13 began at the bottom of the ladder as water boy at P. B. Chase's vaudeville house, now Poll's. From this humble beginning, and while pursuing his school studies during the daytime, the ambitious purveyor of the safest drink in the world, served successfully as card boy, usher, head usher, telephone boy in the box office, ticket seller, assistant treasurer, and so on. As he succinctly expressed it, his term of service with Mr. Chase embraced every duty known to the theater except those of stage manager and musical director.

When on August 29, 1912, Chase opened his new theater, now known as B. F. Keith's, Bob Long participated in the new enterprise as house treasurer. On November 3, 1913, when Roland Robbins was made resident manager under the direction of the Keiths, Mr. Long's faithfulness was rewarded with the post of assistant manager, a position he has occupied continuously until his present appointment as manager of the new Rialto.

It is an interesting coincidence that while she herself has never been identified with the stage, Mrs. Long, who was Miss Agnes Ida Parkhurst, is the daughter of the late George Parkhurst, an English actor who was a member of Laura Keane's company playing at Ford's Opera House, the night President Lincoln was assassinated. There are in the Long home many interesting photographs and playbills of the engagement at Ford's that was made historical by a world tragedy.

Mr. Long, who is a member of the Kiwanis Club, a Shriner and a thirty-second degree Mason, will be in complete charge at the Rialto, and in the conduct of the new theater will be enabled to embrace the opportunity which all managers crave—that of being permitted to give expression to personal ideals of public service in a playhouse that presents the last word in comfort, beauty and luxurious embellishment.

Even mice fail to strike terror to the hearts of Victory Girls of Dayton, Ohio, who are pledging to earn and give \$5.00 each to the United War Work campaign. A band of girls is setting mouse traps at ten cents a mouse. Others are darning stockings, polishing shoes, caring for children, washing dishes, etc. "A Girl from this Home is enrolled for War Work," proclaims the window card displayed by every member of the Victory Girls' campaign.

**ESTABLISH LEGATION.**

**In Lapland.**

In all parts of Lapland there is a numerous class of poorer Lapps whose herds of deer are too small to enable them to live on the mountains or to trust to them entirely for subsistence. These are called Wood Lapps and they live in the woods and forests that abound in the country. There are also the Fishing or Const Lapps. These have a fixed abode, and if they wander it is only for a short distance.

**IT'S NOT WHAT YOU EAT THAT DOES YOU GOOD.**

High Cost of Living Solved By Using Pepsinco, a Systematic Method of Digestion.

Thousands of tons of food are wasted thru improper digestion of food. Many persons are using a new system of food digestion, not only because our government's food expert says that we shall conserve the food, but, also, the high price of food stuffs compels retrenchment. They find that a little food well digested will go farther and do more good than a large quantity poorly digested.

Pepsinco, this systematic method of digestion, is inexpensive and can always be relied upon. The dose is small and powerful. One little tablet will digest an ordinary meal. Everything will be assimilated. The meal will give you strength. No food will be wasted, once you start this treatment.

Stop at the drug store today and get a small package of Pepsinco.

## VON HINDENBURG IS STILL LOVED BY HUNS

Washington, Nov. 20.—Field Marshal Von Hindenburg has moved general staff headquarters to Cassel, according to diplomatic advices here today.

Demobilization of the army will be conducted from there.

The workmen's and soldiers' council at Cassel issued a manifesto urging the people to show Hindenburg every honor while he is there.

"Never was Hindenburg closer to our hearts than now, while fulfilling his duty," the manifesto stated.

"His person is under our protection. We know that both the civilian and military population will only show that they honor him and will refrain from any manifestation on his respect."

## STUDENTS SPEED UP

College students of Ohio have already subscribed \$45,000 in the United War Work campaign and in most schools the drive is just beginning. Ohio Wesleyan with \$10,157 still holds first place. St. Mary's, Dayton subscribed \$4,000. Cincinnati schools report a total of \$5,000 divided as follows: St. Xavier, \$1,000; Cincinnati Conservatory of Music, \$1,010; Mount St. Mary's Seminary, \$2,183; College of Music, \$800.

**The Main Question.**

"Of course, you can support my daughter in the style to which she has been accustomed," said the weary-looking father, "but can you support her in the style to which she has been unaccustomed, but to which she feels that she is fully entitled to become accustomed?"

## SAGE TEA DANDY. TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.

## GERMANS CLAIM IS NOT CORRECT

Copenhagen, Nov. 20.—Negotiations regarding the food to be supplied to Germany have been completed, a Berlin dispatch announced today.

Washington, Nov. 20.—The state department said today it knew of no agreement with Germany and any rationing agreement would wait upon the arrival of Food Administrator Hoover abroad.

## RUB OUT WRINKLES KEEP SKIN CLEAR

The most delicate skin will quickly respond to the soothing and tonic effects of Hokara, when this pure skin cream is used.

As a massage cream or after shaving it is unequalled, removing all irritations, and making the skin soft and velvety.

Apply a little to the hands or face after washing and surprise yourself with the dead skin that comes off.

Hokara is the only antiseptic massage cream, and rimples, eczema and all skin blemishes soon disappear when it is used.

Although far superior to the ordinary massage cream and sold on a guarantee of "best you ever used or money back," yet the price is a trifle, only 35 cents for a liberal jar; larger size, 60 cents.

Sold on a guarantee by Sayre & Hemphill.

## NEURALGIC PAINS

Give Way to Soothing Hamlin's Wizard Oil

Hamlin's Wizard Oil is a safe and effective treatment for headache and neuralgia. Rubbed in where the pain is, it acts as a tonic to the tortured nerves and almost invariably brings quick relief.

Its healing, antiseptic qualities can always be relied upon to prevent infection, or other serious results, from sprains, bruises, cuts, burns, bites and stings. Just as good, too, for sore feet, stiff neck, frost bites, cold sores and canker sores.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

## Resinol clears away pimples

No one knows the humiliation of being a "wall flower" better than the girl with a red, rough, pimply complexion.

If your skin is not fresh and smooth, or has suffered from an unwise use of cosmetics, try Resinol Soap and Resinol Ointment for a week and see if they don't begin to make a blessed difference. They also help to make hands and arms soft and white, and to keep the hair live, glossy and free from dandruff.

Skin and hair once restored to natural health and beauty can usually be kept in condition by the regular use of Resinol Soap for the toilet and shampoo. All druggists sell Resinol Ointment and Resinol Soap.

## FUNERAL SERVICES FOR MRS. HARRY CLARK

Many friends attended the funeral for Mrs. Harry Clark, jr., which were held at the home of her parents, Mr. and Mrs. G. W. Kaiser, on North Detroit street, Tuesday afternoon. Dr. J. H. Webster of the theological Seminary, conducted the service, and a quartette consisting of John W. Prugh, Bert Winter, Mrs. J. W. Prugh and Mrs. Arthur Perrill sang "Jesus Savior, Pilot Me," and "Lead, Kindly Light." Interment was made in Woodland, and the pallbearers were: Don Clark, Robert McKnight, James Cleaver, Samuel Wolf, John and Henry Kaiser.

## JAMESTOWN IS FIRST TO GO OVER THE TOP

To Jamestown and Silvercreek belongs the credit for "going over the top" first in the United War Work Campaign in Greene county. Under the able leadership of John Q. Adams, who was assisted by a splendid corps of workers the township and village reached its quota on Wednesday of last week. As Mr. Adams desired to continue the drive until Saturday night the fact that the township had gone over was not announced. When the campaign closed Mr. Adams was able to announce an over subscription of twenty per cent. In all the war campaigns that have occurred Jamestown has shown this splendid patriotic spirit to which the people of the entire county wish to pride.

Jamestown is also over the top and Miami township reports Wednesday morning that it has only \$300 more to raise. Other townships are also unofficially reported to have successfully completed their campaign. Official figures from all parts of the county will not be received until Wednesday night when the campaign officially closes. However if any district has not subscribed its full quota by Wednesday night it is the purpose of the committee to continue the campaign in those districts until the quotas are reached.

In Xenia city the work in the closing days of the campaign have been most gratifying. The official figures given out by the treasurer Wednesday morning were \$11,415.53. This in-

## YOU'D SMILE IF YOU WERE IN THEIR SHOES

Freed people of Sandermont and Canadian soldiers.

They're just like one big joyful family, these Canadian soldiers and residents of the little village of Sandermont, some twenty kilometers south-east of Arras. Why the happiness? Well the villagers have been liberated from the iron rule of the Huns after four years of oppression. And the Canadian soldiers—well, you'd feel pretty good, too, if you had made life worth living once more for a whole town. The soldiers are part of the Canadian force which drove the Germans from the village.

cludes all cash, pledges and promises of subscriptions. Therefore the city has yet to raise exactly \$1,084.47.

The executive committee makes an appeal to all solicitors to carefully go over their lists and ascertain if they have missed anyone in their territory and if so solicit them at once. Solicitors are also urged to seek additional

subscriptions from persons whom they think should have given more in their first subscription. Only a little more than a \$1,000 is needed to put Xenia over. After the magnificent effort that has already been made by the city the War Work Committee feels certain that no stone will be left unturned to put the campaign over.

## TAKE THE SOLDIERS' MIND AWAY FROM WAR

WHEN hostilities cease and the necessarily slow work of demobilization begins, the American soldier will wish himself many miles from the scenes of battle and the horrors of war, and the only things capable of taking the soldiers' minds away from these scenes are books and magazines. The American Library Association, which is one of the seven benevolent organizations participating in the United War Work Campaign, having for its object the raising of \$250,000,000 in the United States and its possessions, has established an automobile circulation library, shown herewith, which circulates books and magazines from camp to camp. The M. C. A., Knights of Columbus, Jewish Welfare Board, War Camp Community Service and the Salvation Army are the other co-operating organizations. Ohio's share in this campaign is \$15,800,000.

### CLIFTON

Dr. and Mrs. H. C. Foster visited the families of Mr. Frank Corry and Alfred Swaby, last Thursday. They left for their home in Forest, Ohio, Friday.

Mr. Bruce Anderson, Mrs. Sarah Griffith and Miss Grace Griffith are the latest victims of the "flu." Mrs. A. E. Swaby and Miss Coe will be hostesses for all the ladies of the Presbyterian church at the November Missionary meeting held at their home Friday afternoon, Nov. 23. Special program—one feature being a Missionary Play, will be given.

The Thanksgiving services will be held Thanksgiving morning at 9:30 o'clock at the U. P. church, Rev. Wm. McKinney will preach.

Mrs. Ivy Estle Davis, only daughter of Mr. and Mrs. Wm. Estle, was buried here Friday afternoon. She was born here nineteen years ago and spent her childhood here. After her marriage a year and a half ago, she resided in North Hampton. Her mother was buried here a few months ago.

During a severe electrical storm Saturday night, which put telephone and electric lights out of commission the house of Mr. J. W. Boodman, on North street, was struck by lightning. After hitting a tree, plowing a path across the side walk and demolishing the meter on the porch, the current entered the house—doing no further damage except knocking the plastering from the ceiling, upon the bed, where the two young daughters were asleep.

Word was received here last week by Uncle Charlie McGee, of the death of his grandson, Sherman Dudley, on the field of battle in France. Young Dudley was born and spent his childhood in this place.

### SPRING VALLEY

The ladies of the Busv Dozen club motored to New Carlisle Saturday and spent the day with Mrs. C. B. Crane.

Mrs. Frank Gultice who is ill at the home of her mother Mrs. Toner Underwood, is improving.

Mrs. Hawley Hunt is very ill with pneumonia.

There will be an all day Rally and Thanksgiving service at the Friends church next Sunday, Nov. 24. All who have ever been members of the Sunday school and all who ever expect to be, are cordially invited to bring their lunch and spend the day.

Mrs. William Consey has returned from Springfield, where she has been caring for her daughter, Mrs. Earl Confer.

Schools opened here last Monday. Mrs. C. M. Fulkerson is visiting her aunt Mrs. John Elam in Indianapolis.

Miss Bessie Fitch has been called to Georgetown owing to the death of her grandmother Mrs. Marshall. Mrs. Marshall is well known here having visited Mr. Wm. Fitch and daughter quite frequently.

### Athleticism in the East.

The general athletic awakening is perhaps the most important effect that our occupation of the Philippines has had upon the far East. Just as the old Olympic games, begun by one village, grew to be the great recurring event at which all the Hellenic peoples could meet in peaceful competition, so this modern athletic movement starting from Baguio has spread to other far eastern peoples, and has given them not only a ground for friendly meeting, but also a basis for genuine respect and mutual understanding.

## MASKS ARE WORN BY THOUSANDS IN INDIANAPOLIS

Indianapolis, Nov. 20.—An extended masked ball, staged by Old Man Influenza, was opened here this morning. Some thought Old Influenza was down and out, but he did a comeback turn, that caused all to hide their faces.

Invitations for the party were issued by the board of health and attendance was compulsory under pain of paying a forfeit of \$5.

Although the party will extend over several days, and maybe several weeks, there was little fear of scandal mongers and gossipers.

For Sale—Clean old newspapers—three pounds for five cents at this office.

## ARE ADVERTISED MEDICINES WORTHLESS?

There is no more reason to condemn all advertised medicines than there is to condemn all physicians or all druggists. Fakes there are in every profession and in every trade, but the do not last long. Take a medicine like Lydia E. Pinkham's Vegetable Compound, the true test of its merit is the fact that for forty years it has been relieving women of America from the worst forms of female ailments, constantly growing in popularity favor, until it is now recognized as the ocean to ocean as the standard remedy for female ills.

### No Time for That.

Kathryn came running to her mother, crying as though her heart would break. Between sobs she said that dog had frightened her. Her mother trying to divert her attention, said "What kind of a tail did the dog have?" Kathryn sobbed, "Do you s'pose I stopped to look at his tail?"
